ODD TRICKS OF MONKEYS.

eep Up the Interest of Those Wh Care for Them. "We lose interest in nearly all the

animals," said the keeper to a New York Tribune man, "after we have bad them awhile, except in the The oldest keeper in the show will stop now and then to laugh at their antics. They're always inventing new tricks to play on one another. Their intelligence is wonderful and they show traces of con-Barnum with a story which I have no we got him to do certain tricks by a wandering peddler who owned him in the east. This ape is an expert thief and one day he was going through his ground. The aps wanted some of those dates. He was too sly to look at them, but in his tumblings worked over toward them. Pretty soon he got into a position where the bag was between him and the merchant, who ape cleared the bag and came down staring him out of countenance, and making as if to attack him. The merchant was so astonished that he did not notice the ape helping him-self to dates with his hind hands; apes are not four-footed, you know, they are quadrumana, four-handed. Having taken all he could hold, the ape quickly turned his back on the merchant, stuffed the dates into his mouth, and was off in a liffy. growd saw the theft and enjoyed it was so struck with the brute's cleverness that he showed no resentment. The ape, however, had got only a vard or so away in the crowd when a boy, out of pure mischief, struck him with a whip from behind. The ape had struck him. passed two or three others without looking at them, and flew at the unoffending merchant, biting him two or three times bethief had conscience enough to know that he had done wrong, and as soon as he felt the blow he took it for granted that the man he had robbed was teginning to give him the drub-bing he knew he deserved. Some of our monkeys are very fond of being petted and admired and others are not," continued the keeper. That Ittle one over there is as values any woman, and a curious thing in con-nection with her is that her vanity makes her a poor mother. The last litter she had we took away from her: after she had hurt two or three of them badly by holding them out to visitors to be stroked and petted also, and in so doing, pressed them too hard against the bars of her cage.

William was unquestionably ill that hot afternoon when he came into the cited the pity of everyone in the place. The junior partner, with words of sympathy, told him to go home at once. Just as William was starting, the senior member of the

She thought her babies more lovely than all the rest, probably, and she wanted them to get some of the ad-

miration and attention which she en-

'Hello, what's the matter?' asked, seeing the boy's pale face. "I'm sick," mumbled William.

"What ails you?" The broker wa uspicious instead of sympathetic My stomach," answered the bov. "What's the trouble?"

"It hurts," said the boy. "What have you been earing?" sternly asked the employer as he looked into the boy's eyes.

Oh, nothing much.
"Any hokey-pokey ice cream?" "A little."

"How much?" Four glasses maybe, or five." "Anything else?"

"Four pieces."
"What else?"

"Some wantles."

"How many—a dozen?"
"No, sir. Only three."

"What else?"

"Is that all?" "Well, some apples, and a piece o watermelon and-

"A piece of pineapple, I think." What have you been drinking? "Some sodu water and lemonade.
That's all you can think of?" "Yes, sir."

"Well, you go home, and if you ever get sick again I'll discharge you. The men in the office looked in won der at the little boy with an enor mous capacity, and wondered how it was that he wasn't dead\_instead\_o

A little black snot on the end o the snail's horns are the animal's eyes. He can see with them very little, but they serve to distinguish for him light from darkness, and enable him to observe objects at a distance of an inch or two.

EVERY man has the secret hope in his heart that when he gets to Heaven, every one he knew on will go off into a remote corner while his record is read.

#### WHAT OF THE WEATHER 1880.

FOSTER'S FORECASTS TELL THE STORY.

sippi Valley About October, 31 — Cooler Weather Will Follow.

Cool Weather Coming.

My last bulletin gave forecasts of the storm waves to cross the continent from 24th to 28th, and the next will reach the

24th to 28th, and the next will reach the Pacific coast about the 29th, cross the Western mountains by the close of the 39th, the great central valleys from October 31st to November 2d, and the Eastern States about November 3d.

This will be a severe storm, and at its greatest force while crossing the Mississippi Valley. An electric storm will probably accompany this disturbance, causing many difficulties in the telegraphic service. This electric storm will probably be at its greatest force about Nov. 4 or 5.

The cool wave will cross the Western mountains about Nov. 1, the great Central valleys about the 3d, and the Eastern States about the 5th.

Lucal Forceasts.

Local Forecasts. Weather changes move from west to east across the continent, and each local forecast is made for within 20t miles east and west of the magnetic meridian mentioned, and for all the country between 14.55 tween 25 and 50 degrees of north inti-tude. These local weather changes will occur within twenty-four hours before or after sunset of the dates given:

A DIMEMUSEUM advertises a "horse back planist." Probab'y plays galops exclusively.

Ir is easier to find a successor for Tennyson, the laureate, than to Ten nyson, the poet.

It is good news which says that "the cholera is losing its grip." bad enough without the grip.

It is on the programme that Mme. Patti's American farewell tours will continue until 1894. It is hard to say "good-by."

One thing can be said in favor of Nancy Hanks-if she is fast, she doesn't appear on the street with her brother's suspenders on.

The man who fails to vote is truly a man without a country, and a man whose services to his country are in inverse proportion to his country's services to him.

THOSE who have kept a careful eye on Nancy Hanks have about concluded that the mare will never be entirely happy until she has kept up her two-minute gait for four consec utive quarters.

The privilege of selling peanuts at the World's Fair has been knocked down to a confident bidder at \$170,-000. This brave man has accepted the idea that the public will shell out with unexampled liberality.

SIR JULIAN PAUNCEFOTE is an ac complished musician and can play anything from an Erard harp to an end man's banjo, but when he gets down to recling off "Yankee Doodle" one of the strings is sure to give way.

JAMES TALBERT, a colored fakir, is exciting the citizens of Fayette County, Alabama, by swallowing four gallons of cold spring water in as many minutes. In certain parts of Kentucky the quality of Mr. J. T.'s beverage would astonish the natives even more than its quantity.

would give up his religion for the sake of the office, he being a Catholic. To this question he at once returned a very decided no, but after a squabble he was elected by a fair majority, London bridge has not yet fallen down as a consequence.

Mexico has passed the sixty-eighth anniversary of the adoption of her grst constitution as a republic. It was observed becomingly, and in this connection it is pleasant to know that our neighbor has passed through another presidential election safely and is prosperously and peace fully in the enloyment of health and happiness. Long may she grow

HANK FREEL, a notable character of Wyoming, is no more, A nephew has shot him, and that no anticipatory anguish might befall Hank, was thoughtful enough to shoot him in the back. Then another Freel shot the nephew, and at this point, much to the discomfiture of citizens generally, fatalities ceased with some of the family surviving.

THE panic in the Ludlow Street Synagogue in New York, which resulted in the loss of four lives and in injuries to many, was another instance of what a foolish cry of fire can do in a crowded congregation. There was no cause for the panic, and no one would have been hurt had not oolish fellow lost his head. result is a costly tribute that the world has to pay for the lack of sense of some of its inhabitants.

CONNECTICUT civilization is the latest to put on white caps and beat the unrighteous into proper appreciation of the standaro of virtue as there set up. In their arder to snatch brands from the burning the Nutmeg reformers nause at nothing, but bravely tie women to trees and whip them right valiantly. There are people, however, in addition to the whipped, who object to whitecap methods, and to whom an unhanged whitecap seems a painful anomaly.

RAINMAKER MELBOURNE hadnanic at Chevenne when he thought that some one had stolen his valise. The valise contained the key by which he unlocks the clouds, and he was fearful that in the hands of an amateur much damage would be wrought. An amateur might have disturbed the combination so that the flood. gates would never again open, or have opened the gates too wide and drowned the planet. But Melbourne found his valise, and the world, with a sigh of relief, resumed its orbital swing.

An employer, discouraged at the repeated sprees of his hired man, remarked with some bitterness: "If I were you I would go drown myself. The toper-accepted the advice and followed it to the uttermost limit-a marble slab at the morgue. Now the widow of the suicide brings suit for damages against the somewhat saturnine adviser. If she gets judgment, prudent people will be careful about be ashamed of myself." Recipients of the advice might accept it-and be damaged.

THE Lewiston (Me.) Journal tells

all the housework for her husband and (amily, besides teaching school five days a week and walking a round trip, each day, of five miles in get ting to and from the institution of learning over which she presides. With all due regard for the sacred character of marital vows, our advice would be for that woman to leave her husband to look after himself, and locate the remainder of the family in the immediate vicinity of the school

AT last the Daltons are exterminated. After a most remarkable career of roblers, and murder, the gang met their legitimate fate. They tried to rob two banks in Coffeyville, Kan., and their expedition was fatal. Of the six, four were killed, one was mortally wounded, and the other wifl soon join his associates. This fortunato riddance was accomplished only by the sacrifice of the lives of five citizens. There was poetic justice in the fact that the Daltons ended their careers in the place where they began their crimes. Their history was a long record of villainy, and their death is a blessing to that entire section of country.

Ir is not often that even the most ecomplished swindler can count so many as three thousand victims. But of all the easiest forms of duping the human animal the matrimonial swindle is said to be the easiest. So perhaps we need not be surprised to learn that whole regiments of noodles answered the advertisement in a French newspaper which announced that a young ornhan lady, with a splendid income, wished to marry a serious and refined gentleman. It was not until multitudes of these hoaxed persons, each of whom had paid a \$6 fee to the intermediary clamored for justice that the police intervened.

WHAT are these startling rumors concerning the decline and fall of McAllister? Are they meant to disturb the autumnal tranquillity of the arbiter of fashion, and especially of form, as he sits playing on pastoral pipes in the shades of his Newport farm? Are they the gaspings of jealousy or the mouthings of ambition? Does green-eyed Envy walk beside the illustrious farmer, as, in his broad straw hat, decorated with gay ribbons, he prods the unruly ox with The new Lord Mayor of London the goad, or chases the roguish con was asked before his election if he when she breaks from the pen? Does youth promise more activity in the conduct of social functions? - Does it agree to show less dictatorial spirit than the great man has shown? Scize the strius; O pastoral McAllis ter, and respond!

> THE Government Agricultural Depastment reports an Indian corn mill in operation in Berlin and two more to be established at Hamburg-all to grind American corn. These are the first practical fruits of the agricult ural department's recent missionary labors in introducing American johnny-cake to the German people. The first mill has worked night and day, and then could not fill orders. Our johnny-cake, therefore, seems to be catching on. Large quantities of cornmeal and line-cake are also to be sent out to preach the good cause among the highways and by-ways. A big bakery, devoted exclusively to American Indian corn products, is to be opened at the German capital. Accordingly, the conquest of the German Empire with Yankee johnnycake, Southern hoe-cake, and Boston brown bread made of Western corn. seems imminent.

WE trust that all our honest friends and readers will join us in the confession that we do not in the least know what is in controversy between the Briggsites and anti-Briggsites. are once more arrayed each other before the New York That is the solemn Presbytery. truth as regards us and, as we sus nect, many other journals making professions of greater wisdom. Perhaps it is even true of some members of the learned Presbytery themselves We have the very highest respect for the mental digestive apparatus of any man who, having followed this unprofitable controversy from the beginning, is still able to assert with con fidence that he knows where he is at We are sure only of one fact, that the present is not the final stage of the dispute. Dr. Briggs is only at his nineteenthly, so to speak. There still remain unnumbered stages to be attained. The son or grandson of Dr. Briggs may live to see it through, but assuredly no one of this genera tion.

THE term "strike" seems to have grown into its present use by adoption rather than from any definite origin. In all climes and ages the hours of labor in gangs or squads have been marked off by the striking of a bell or gong, either by hand or clockwork. From this naturally arose the expression, "to strike work" at such an hour which was in use long before the days of unionism. It seems easy for this of unionism. It seems easy for this expression, meaning to put down tools and quit for a certain period, to have been adopted to mean the quitting of work for a definite object.

QUEEN VICTORIA wants the Sultan to be as kind as possible to Prince Ferdinand of Bulgaria, and to treat him with friendly consideration should he visit Constantinople. And when the old lady expresses a pronounced wish, over her own signa ture, it is dollars to doughnuts

THE fist is inightier than the pen Corbett made \$45,000 in two hours by pounding a rullian. The spring by pounding a rufflan. The spring poet who could make forty-five cents of a woman near that city who does! in the same time would feel proud.

#### NEW SYSTEM OF VOTING

THE AUSTRALIAN LAW IN EF

The Mussachusetts Medification — Tim Alowed in Booths by the Various Stat Laws—How to Vote in New Yorkind New Jersey—Italy and Its Two Chass Urus.

How We Will Vote Nov. B. In no election since the formation of this government has a secret bal-lot law been so generally in effect, in no year have the votes of the people been so sacredly guarded, at no time have the electors been so thoroughly rotected in their individual views a in our coming election, says a writer in the Memphis Appeal-Avalanche.

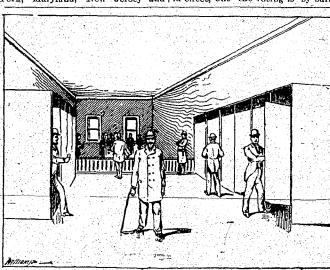

On the heels of a reform ballot In Massachusetts, in effect in 1888, came similar enactments by the legislatures of Indiana, Montana, Rhode Island, Wisconsin, Tennessec, Min-nesota, Missouri, Michigan and Con-necticut. In 1891 Washington, New York, Maryland, New Jersey and

allot has the names grouped by parties, and the "straight" voter marks his cross at the head of the ticket he selects. The man who wants to scratch marks the squares opposite he names of the various candidates.

The polling arrangements differ materially and the time allowed voters in compartments is strangely dissimilar. Belgium has, perhaps, the best system in vogue. The electors are kept in a waiting-room be-hind movable partitions, and as their names are called proceed into the voting-room, receive the blanket ballot and prepare them in roomy com-partments. They fold and stamp them and deposit them stamp up in

the election urn. The counting of the ballots is as strictly guarded. Kentucky allows a voter three minutes in the election booth, New York five minutes, Connecticut five minutes, and so on, laws varying all he way from two to ten minutes.

In Greece the Australian system is in effect, but the voting is by balls.

VOTING IN NEW YORK.

dud in 1891 Aradisas, Carloffila, Colorado, Delaware, Idaho, Illinois, Maine, Nebraska, Nevada, New Hampshire, North Dakota, Ohlo, Oregon, South Dakota and West Vir-ginia followed the example which had been set. In 1892 those States, like Iowa, whose legislatures were in session, passed laws either conforming to the first-framed secret ballot law or at least took steps looking to that end. So that November 8, but nine

THE GRECIAN FUNNEL SYSTEM OF YOTING

States will vote as of old, and even in these slight changes show the ten dency of the times.

Preserve This for Reference

Francis S. Dutton, the framer o the Australian ballot system, did not, perhaps, in his wildest fancies, dream that the idea which he gave to the antipodes in 1851, would circumnavigate the globe, be adopted alike by the voter of Belgium and of England, of Italy and of Greece and by Canada

Vermont adopted laws very similar In the polling place there are ranged to that adopted in Massachusetts, in a row ballot-boxes equal in numand in 1891 Arkansas, California, ber to the number of candidates, and on each is the name of a candidate in plain letters. The right half of the box is white, with the word "Yes" upon the front; the left half is black, with the word "No" as prominent. Within are two bags, one placed to the right and the other to the left, with a partition between the two. A funnel about ten inches long and five inches in diameter projects at a slight unward angle from the front of the box. After the voter has given his name and proved his right to vote, he approaches the line of boxes. An election officer attends him from box to box, at each one giving him a small metal ball. The voter holds this up between the thumb and forefinger to show that he has only a single ball, and, thrusting his arm in the funnel, drops his ball to the right or left, according as he yotes for or against the candidate; the merement of his hand being un-seen. At the close of the polls the

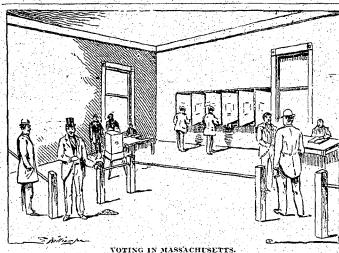

seen. At the close of the polls the votes east for a candidate are subtracted from those against him, and his total is thus ascertained. In Hungary, until a few years ugo, the electors voted with sticks, colored to represent the different candidates.

In Italy two glass urns are used. The one contains the blanket ballot, properly stamped by the inspector, and drawn out as each elector comesand drawn out as each elector comes forward. The second urn contains the folded ballot as voted.

The manner in which a member of Parliament is nominated and voted for may interest Americans who fol-owed the announcement of the English election results a few weeks ago with almost as much eagerness as the

British themselves.

A candidate for Parliament is nom-

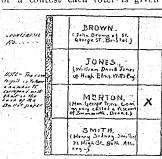

the sancity of the ballot, the states men of France threw it aside. Michigan, in 1885, felt that it was not gan, in 1885, felt that it was not wanted. But the idea need comparatively little agitation. No session of a State Legislature passed in which some effort at reform was not made. when Massachusetts and Ken tucky set the example the other States followed quickly with like legislation.

And yet the old Australian system has undergone vast modifications in legislative peregrinations. distinctive feature when first enacted in New South Wales was that providing for crossing off the names of all candidates not voted for. These were on one ticket, and in red ink were explicit directions as to the number of candidates to be voted for. Under the New York and New Jersey law, the so-called blanket ballot is set aside, and each ticket is printed on a separate form. For "straight" voting no marking is required, and for the benefit largely of the blind and the illiterate the paster or "stick-

" ballot is permitted.

Where the blanket ballot is in use the names of the candidates of all parties are printed on one sheet, the voter making his choice with a cross. Many States follow the original Australian plan of arranging the names of candidates alphabetically. This is the case in Massachusetts, Califor-nia, Kentucky, Montana, Minnesota, Nelraska, New Hampshire, Oregon, number of the elector is marked on gle their ruln with that of a harbor Rhode Island, Tennessee, Vermont, the counterfoil. It is then taken town.—St. Nicholas.

and the United States. While Cavour finated in writing. The signers must considered it the very foundation of be a proposer, a seconder, and eight other registered electors of that couny or borough. This is handed to the eturning officer, and, if at the time of the election one hour passes and only as many candidates stand nomi-nated as there are vacancies, he at once declares them elected. In case of a contest each voter is given a

N ENGLISH PARLIAMENTARY ELECTION

"ballot paper," giving names and de scription of the candidates like this: MORLEY.
(John Morley, of 32 Piccadilly, London, journalist.)
Each ballot has a number printed

on its back, and on its face a counterfoil containing the same number. At the time of voting the ballot paper must be marked officially. It is then delivered to the voter within the polling station and the registered

Washington, and Wyoming. In the into a closed compartment, marked other ballot-reform States the blanket and folded, and placed into the ballot box, the official scal apperment The returning officer at the close of the polls counts the ballots in the presence of the candidates or their agents, and at once declares the candidates receiving the largest number of votes elected. The returning officer casts a vote only in case of a tic. He fixes the day of election in case of a country-district or borough not latter than nine days after the re ceipt of the writ; and for other bor-oughs than that of the district, not later than four days after receiving the writ. The election hours are two, and must be some time between 10 a m. and 3 p. m.
Incidentally it might be as well to

call the attention of the American voters to the ease with which a vote can be invalidated. The courts have decided that the following markings on a ballot are illegal and make the ballot void: A cross in the upper left hand corner outside the space for names; a cross at the left and below cross at both the right and left; cros on the back of a ballot, opposite the name of the candidate; two crosses cross with letter above or below; cros with additional marks of any kind cross with the candidate's name in addition; cross with another name written in; cross and voter's signature on any part of ballot; cross in form of ornate script; cross with small lines running in several directions; circles or ovals; spiral designs; star or asterisk; lines not forming a cross; blot or scratch in ink below candidate's name; straight line or the back. he back. So the voter has numerous pitfalls

to avoid. Let him make his mark in the shape of a plain cross and his vote will count.

Wonders with-Figure

A committee of the French Acade has recently investigated the latest of mathematical prodigies, Jacques Inaudi by name, and a writer in the Revue des Deux Mondes offers an interesting account of the offers an interesting account of the case. Inaudi, who is now 25 years old, is of poor family, and his childhood was spent in taking care of sheep. His extraordinary mathematical genius showed itself when he was 6 years old. His older brothhad taught him to count, but so as is known did not teach him the multiplication table. At that time neither of the boys could read. Within a year Jucques could multiply in his head numbers containing

The older brother soon left home on a barrel-organ trip, and Jacques accompanied him, to collect the pen-nies and exhibit his skill at figures. Not long afterward a showman en gaged him, and he made his first appearance in Paris.
His wonderful performances are in

addition, subtraction, multiplication division, and the extraction of roots. When a problem is given to him When a problem is given to min he listens, repeats it, says, "I begin," falls to muttering rapidly to himself, and presently says, "I am done," and announces the result.

While he is engaged in the calcu-

lation nothing disturbs him, and he will answer questions and even carry on conversation during the process that is to say, while he is multiplying in his head eight figures by eight figures, or reckoning the number of seconds in a given term of years, months, days, and hours! In the same way he will add in a few sec-onds seven numbers of eight or ten figures each, or extract the sixth or

eventh foot.

M. Binet, the writer of the Revue article, believes that the case furnishes strong confirmation of the theory of "partial memories"—memotheory of partial memories, memories, that is, for particular classes of objects. Inaudi will repeat after you twenty-five figures, while an ordinary man could not repeat more than from seven to ten. If letters

and the occar. That point in the earth at which the explosion or breaking takes place is called the carthquake-focus; and from it what are known as carthquake-waves pass to the surface. What do these earth-quake-waves resemble? Take a basin full of water and dip a glass tube in it. Blow through the tuble and you will see bubbles rising to the surface and circular waves passing out. The disturbance at the bottom of the basin corresponds with the explosion or snapping of the crust at the earth quake-focus, with this difference that instead of water-waves, the latte produces earth-waves, passing through the ground. When the city of Lis bon, Portugal, was destroyed, the carthquake took place in the bottom of the sea, fifty miles west of the city Yet it so agitated the water that wave sixty feet high dashed ove Lisbon, destroying it and its inhabitants in the space of six minutes. Another earthquake, occurring just off the coast of Peru, made such a gigantic wave that a large vesse was thrown several miles inland These are called carthquake-waves They are the largest known waves and are caused by the heaving and rocking of the bed of the sea deep water such waves are not very high, but their motion extends far down into the ocean. When they reach shallower water, however, they heap up like a gigantic wall, with a force more terrible than fire or sword, they sweep on, bearing destruction with them. Huge ships are tossed like straws far inland, or min

#### TOGS FOR LITTLE TOTS.

SOME LATE AUTUMN COS TUMES FOR THE CHILDREN.

The Boy Gets Out of Girlish Skirts and Into His First Pair of Pants—Short Hair is the Thing-Gowns for Little Girls.

Gotham Fashion Gossip.

HILDREN'S clothes are in-cluded in woman's thoughts and tribu-lations of dress. Just now the fond Just now the fond mother is costuming her hopeful son for the late autumn and early winter. If the little fe low has only just had his skirts of infancy taken off, the doting parent, is in a quandary. Her first great struggle in the inatter, of course, cut off the darling's

struggle in the inatter, of course, is whether or not to cut off the darling's pretty curis. The father either requests or insists—according as he manages such family affairs or doesn't—that it is time for the boy to be distinguished from a girl. The mother agrees readily that the skirts shall go, and some form of young masculine log-covering be substituted; but she is sure to have a good cry over the eropping of his hair. However, it is a plain and sure chronicle of current fashions to write it down that short-haired little boys are considered the correct thing in New York swelldom. Little Lord, Fauntleiroy has gone clear out of sight, and only rarely is an example of him visible. The little boys of the various Astor mothers not only have close-cropped heads this fall, but their attire is completely free from girlish shapes and adornments. The initial picture shows one of these small chaps exactly as he appeared to the artist in Fifth avenue. It will be seen that no ribbons, but when not ribbened, his cout was a arenue. It will be seen that no ribbons or any other flimflams were on him. His hat was not ribbened, his cont was a mannish sort of reefer, and even the knee-breeches, which are still fashionably retained, were here displaced by regular trousers. The material, as mothers inclined to follow this model. mothers inclined to follow this model may like to know, was heavy navy blue serge, without any decoration whatever. But such a suit would look well with the collar and plastron in blue and white stripes, or with embroidery on a white or light-blue ground.

The second fashion rlate shows another manly dress for a loy, much like the other in its outlines, but in this case knee-breedies and stockings are a part of the outfit. The coat is single-breasted, and under it is a vest butlened up to the turn-over collar. Such

toned up to the turn-over collar. Such a coat is suitable for a boy of 6 to 10 years old.
The revulsion against what we may

A COY'S MANLY DRESS

call sissy boys has extended to theatthan from seven to ten. It letters are given to Inaudi, however, he cannot repeat more than seven or eight. It is believed further that his case indicates the fact that there is such a thing as an "auditive" as well as a "yisualizing" memory. Most mathematical prodigies have professed to see, mentally, the figures with which they had to do, while Inaudi invariably declares that he does not see, but hears them. This goes with his habit of whispering or muttering to himself during the operations, and it has been noticed that if he tries not leaves and no longer is the infinite audiences, and no longer is the infinite audiences, and no longer is the infinite actor liked, except as a subsidiary and incidental performer in a play, at a recent charity matinee "Pyramalion and Galatéa" was given by children of the stage. There had been guthered enough of the Fauntleroys and Edithas of several years back for a cast which ranged in age from 5 to 18, in beight four there for the feet nine, and in ability from dullness to brilliance. The four principal parts were taken by the larger children and were well done in so far as elecution was concerned, but sissiness in the now overgrown Faint-leaves and no longer is the infant actor liked, except as a subsidiary and incidental performer in a play, at a recent charity matinee "Pyramalion and Galatéa" was given by children of the stage. There had been guthered enough of the Fauntleroys and Edithas or several years back for a cast which ranged in age from 5 to 18, in beight from dullness to brilliance. The four principal parts were taken by the larger children and were well done in so far as elecution was concerned, but have been noticed that if he tries not himself during the operations, and it has been noticed that if he tries not to whisper he is much longer in reaching his result.

At some time since he was 13 years old Inaudi has learned to read and write, but even now, we are told, his education in many respects is only rudimentary.

Earthquake-Waves.

While we usually think of earthquakes as taking place on land, they do, indeed, occur with equal devastation if the occan. That point in the

listening to, as well as looking at. Two were in a Fifth avenue stage with their nurses this morning.
"Were you a!raid of the cholera?"
asked one.

"Oh, yes. Mamma is going to let me go to parties a little this year, and if

any of us had died it would have been y or us and died to would have been busted up," was the reply.
"I wasn't afraid. What is cholera

anyhow? Oh, it's dreadful! It makes you make terrible faces and screw up your legs and die. It isn't a bit romantic. Why, I read about a girl who died with her mouth all horrid and open to one Then they both shuddered and said

"Ough!"
The hat shown in the third picture, with the pretty face of a bell in miniature, looking out from its frame of

brim, is a model that will be rather extensively doplicated next winter. Nosonly will such hats, made of soft felt and often trimmed with fur, be worney in the girls but also by young women. The very latest news of millinery is that hats will be dressler than usual, and, therefore, will be worn on occasions when, hitherto, bonnets were considered more appropriate. These hats may be described, in a general way, as low-crowned and wide-brimmed. In some cases the crown is uniquely pressed, and to the bria legiven some capricious touch of adjustment. Some of the bonnets show broad crowns, with narr w, cap-like brims. Ostrich feathers will be used plentifully in trimming hats, placed separately, as a rule, and not in a close group. Thus it comes that liner and costiler feathers will have to be used. Felt will be in great favor alike for bonnets and hats, but they will be trimmed richly with velvets, satin yibbons, and braided chenille.

To return to juvenile, toilets, kindly look at the fourth pleture for such a dress as fashionable mothers put on their little daughters for home wear. In this case'the gown was made of navybue thannel with a narrow white stripe in it. A little bertha was white lace. The boy and girl in the fifth picture were sketched as they played in Central Park. The boy was nine or ton years old. His suit was nautical to some extent, the trousers being of navy blue, the blouse brim, is a model that will be rather ex-

of white flannel, and the collar of a blue which matched the pantaloons. The girl was a year or so older. Her gown was gray flannel, and the Green-

gown was gray flannel, and the Greenaway bonnet matched it in color. She is a wise woman who sets her patlor lamp not on a center-table but on a good high pedestal. At the foot of the pedestal, which for safety should be put in a corner, she places a low chair. If she is a blonde she puts a yellow shade on the lamp. Then she sits on the stool or low chair and lets the light sift gold dust through her hair and make a halo of it around her face. If she is a brunette she makes the shade a deep orange—if she has the color to stand it crunette she minkes the shade a deep orange—if she has the color to stand it — or rose. I knew a brunette who never asked any but blonde women to her house, and so she had her lamp all to herself, and drove her guests wild with envy. That is what one has guests for, isn'fit?

envy. That is what one has guests for, isn'ti?

When a new book is given to you, sprinkle some orris root or powdered sandel wood among the pages. The new odor of a book is not pleasant, and why not have your books seem to have an individuality. By the way, a friend of mine makes her maid read all the books that lie around, "so as to give them a used air," she explains. For herself, she has not time. While her hair is being brushed she asks the maid questions about the books to inform herself at the one time of the maid's idelity and the contents of the looks. I have been looking over an old, old fashion book, and do you know what we may coming to? We shall be back in 1836 in less than no time, and frights we will be! That is the way the cape effect over the shoulders is going. Back will come hoops, short will the skirts be clipped, and it is hard to believe we will think ourselves lovely, but we probably will.

The debutante should wear her dress

The debutante should wear her dress The debutante should wear ner dress only prettily rounded out at the throat, just to show you that she could perfectly well do nore. After she has been out a season she can make over the dresses of the year before by just cutting out the season was a season she can make over the dresses of the year before by just cutting out the necks. Next year she can go lower yet, and then she can suddenly go back and have her dresses just out out

about the throat. Every one will then say, "Really, Miss X. looks every bit as young as when she first came out." At lenst, that is what she thinks they say. It is a pretty fashion to keep a flower tox for your particular favorite, and grow the 'buttonhole' you give him. Pansies are the most popular. Thy to get some special variety, and when he comes to take you somewhere you pluck for him the two or three that are in boom. Isn't it a pretty iden? Of course, you need not have your box too small, and you need not conline your attentions to one particular man. It is rather funto send two or three fellows around each wearing what he supposes is the only special flower. If they meet there may be trouble, but that would be fun, too. fun, too, Copyright, 1892.

INNOCENCE, however attractive it may appear, is simply a negative quality. It is the absence of something wrong, but not necessarily the presence of something right. In its most common use, with regard to some special vice or crime, it simply means that a particular deed has not been committed. We say that such a one is innocent of the theft, or falsehood, or evil intention which he may have been charged; yet, while we are glad that such is the case, that does not endow him with any positive good quality. The jury who pronounce the prisoner at the bar innocent of the crime for which he has been tried do not thereattribute to him any special tue. We may rejoice at his acquittal, and sympathize with him in having been unjustly accused; but the mere avowal of his innocence, while it clears, cannot exalt his character.

Virginia. This time Mrs. Pike, who. with lady-like diffidence, has heretofore remained behind the house while slaughter, was dewing the front lawn, got such a chance to shoot a couple of the Billups' children that she could not resist. Society is so torn up over the affair that Mrs. Pike has retired to the jail to escape the fervor of its expres-

THERE is nothing slow about the methods of the Philadelphia Society the Prevention of Cruelty to Animals. Lately a lady was fined in that city for having her horse's tail docked, and the man who performed the operation is also to be arrested. This action should be legally made a crime everywhere; and, if it had its appropriate punishment, the penalty would be banishment to a penal colony in New Jersey, in the thickest of the mosquito region, where the offenders might find out by experience how keen is the torture by insects to one deprived of the natural means of self-defense.

This old and pertinent question is uggested by the curious stories which come across the ocean concern ing the danger of infection from products shipped from ports where cholera has been raging. For instance, an English importer of potatoes from Hamburg died of cholera after eating some of his own merchandise, and we are therefore cautioned against all Hamburg food products. But an English physician of an adventurous turn had some of the real, old-fashioned, unadulterated cholera germ sent to him from Hamburg and absorbed it into his system as an experiment. He lives and, still enjoys a tranquil digestion. Now what are we expected to deduce from his case, and—What is Truth?

ONE excellent feature of the World's Falr will be the opportunities afforded for study. No one can "do" the great exposition in one day, nor in two days. The expenses of a trip to Chicago, living while there and daily admission to the grounds will be beyond the reach of many deserving persons, particularly women. Mrs. F. B. Clarke, of St. Paul, a member of the Board of Lady Managers, has proposed a plan that reflects as much honor on herself as it promises profit for the beneficiaries, time when apples were in great de-Scholarships" will be sold to wealthy persons or societies, and will be by them conferred on women who could and would use the splendid opportunities for study, but whose limited fortunes would compel them to remain at home. The "scholarships" entitle holders to fare to and from the city, board while here, and the freedom of the grounds. Much good will thus be done those who most nced it and whose added knowledge will be one of America's most lasting and valued profits from the fair.

SECRETARY TRACY has issued ar order concerning the employment of pilots on United States naval vessels, such vessels of much anxiety, and save many thousands of dollars to the Government. He has revoked the old order with respect to the employment of pilots, which was so worded that it impliedly cast a reproach upon an officer who did not pilot his own ship into port, and has substituted for it the direction that "commanding officers will employ pilots whenever, in their judgment, such employment is necessary." The Government compels merchant vessels entering an American port to take a pilot, and it is folly to expect fine. that naval officers should have a more merchant captains, who are constant, may be sprinkled over it, when the percentage of the stock will eat it with more relish. Some time since a humane society of until light and brow ing yessels from one port to another.

The beards of barley straw are consult was entered against E. E. Hazen. ing vessels from one port to another. The former may, and doubtless de, have greater theoretical knowledge than the majority of officers in the merchant marine, but to be able to pilot a vessel safely over the shoals and reefs which may exist at the entrance of a harbor requires an amount of practical experience which it is impossible, im many instances, for naval officers to acquire. Under the old order, accidents frequently happened to naval vessels when entering the ports of the world, involving the expenditure in repairs of many thousands of dollars. These accidents frequently brought undeserved reproach upon meritorious officers The officers either had to pilot their own vessels, when they had not an adequate knowledge of the harbor which they were entering, or subject themselves to unpleasant criticism at neadquarters; and it is easy to infor, from the impulses of human nature. which horn of the dilemma an ambitious and high-spirited officer would

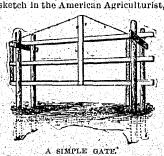

seize. Evening and House Gowns A favorite combination for evening or house gowns is very light rose color and black, writes Mrs. Mallon in "The Small Belongings of Dress" in the Ladies' Home Journal. One of the prettiest tea-gowns has a Watteau THE Philadelphia Times and back of black mousseline de soie, and the ends of which reach almost to the closely, while the outer one is of black, and is cut in the regulation of Mechlin lace is its finish. convenient and Economical Hay Feedin Floor-Keeping Frost Out of Cellars-A Plea for Improved Highways - Pur

A Sliding Farm Gate.

There are still large sections country, in which even cheap gates are rarely to be seen. The rail fences be laid down every time a field is entered. The hinge gate requires some skill to make, and used must be heavy, and well and firmly set. The illustration of a very cheap gate, engraved after sketch in the American Agriculturist

shows a gate that any farmer, who can use a coarse saw and drive a nail, can readily make. It is designed for a place where small stock are restrained. For a full gate cut the cross pieces of the same length as the front, and add two, more woards. There are two posts for each end of the gate, and they may be just the ordinary post, with no extra bracing as the gate slides on the cleat nailed to the back posts. It will be observed that the back posts stand so that the cleat can be nailed to the front edge of one, and the back edge of the other. giving room for the gate to be swung around toward the side of the post furtherst back. When the gate is closed the front end rests on the cleat nailed to the front posts. A barbedwire may be stretched across the top.

Overdoing the Small Pruit Business. To the Massachusetts Ploughman a writer makes the inquiry: "Don't you think the small fruit business is in danger of being overdone?" the same danger that exists in every other kind of crop; when there is an appearance of money in it, there is a rush in that direction. It is over-done, prices go down and many leave the business until prices come up and the same is repeated. There was a mind and large orchards were set; with the increase of production there came a downfall of prices, blasted hopes, and many fine orchards were destroyed. It is well to bear in mind that in the case of small fruits, and of the large ones too, that there is no danger of overdoing the production of tine fruit. Put specimens of acknowledged excellence of any product upon the market and there is no danger from the competition of in-ferior supply. With a very flush market there is always a sale of the best at good prices, but the poor article has to suffer and quite frequently goes begging for a market.

Feed the Straw. In all industries the use of the bye products is a great source of profit. The straw in grain growing has much food value. To care straw in the proper manner the grain is housed in good condition, or is so stacked that the weather will affect it but little. When threshed, it is put up in neat stacks which will shed rain, is sible, placed under shelter. stacks, when the feeding season arrives it is so cut down with the hay knife that only a portion of it may be uncovered at a time. This applies more particularly to oat and barley straw, the feeding value of which for farm stock is considered to be worth half as much as timothy hay, pound for pound. If about two quarts of salt per ton of straw be applied to straw at threshing time, it sidered by many objectionable es Beaver County, Pennsylvania. copious discharge, and the impediment is usually thus washed out, but if not a second application will re-Most of the beards can be inoving, at threshing time, a twoinch cross section from the straw carrier allowing the beards to fall through. The chaff is a valuable constituent of the oat crop, and should be carefully preserved for feeding purposes - American Agriculturist.

Wheat and Rye on Corn Stubble, Many farmers plant corn strong to wheat and rye, and are usually in such a hurry that three rows of shocks are placed together and the palance of the field sowed. This plan farm. If a repair of a machine is serving pour it over the cake. On this plan farm. If a repair of a machine is serving pour it over the cake. On this plan farm, it is be made with a view this spread a thick layer of peeled, which is pread and sugared peaches, and over the cake. are useless to the crops. Weeds are and loss of life. To keep all impleallowed to take possession of the ments and vehicles in repair is one of strips and, until the crop of grain is the important duties devolving upon cathered, the field indicates the structures farmer. It is not much trouble to hand off the shocks to the brought to han of the shocks to the barnyard or to an adjoining field, set-ting them up in rows. They are then more easily busked. The busked corn is nearly all in a body, and is more easily secured. The stalks and all litter of leaves and husks are then for tuture use. The grain and straw that can be produced on these strips doing nicely. The principal point to will renay many times the expense of be observed is to set when the soil is hauling off the stalks. If possible, haul the stalks to a pasture, or meadowlot, and thus Insure clean-lines in bushless that the stalks to a pasture or meadowlot, and thus Insure clean-lines in bushless the stalks to a pasture or meadowlot, and thus Insure clean-lines in bushless the stalks to a pasture or meadowlot, and thus Insure clean-lines in bushless the stalks to a pasture or meadowlot, and thus Insure clean-lines in bushless the stalks to a pasture or meadowlot, and thus Insure clean-lines in the stalks to a pasture, or meadowlot, and thus Insure clean-lines in the stalks to a pasture, or meadowlot, and thus Insure clean-lines in the stalks to a pasture or meadowlot, and thus Insure clean-lines in the stalks to a pasture or meadowlot, and thus Insure clean-lines in the stalks to a pasture or meadowlot, and thus Insure clean-lines in the stalks to a pasture or meadowlot, and thus Insure clean-lines in the stalks to a pasture or meadowlot, and thus Insure clean-lines in the stalks to a pasture or meadowlot, and thus Insure clean-lines in the stalks to a pasture or meadowlot, and thus Insure clean-lines in the stalks to a pasture or meadowlot, and thus Insure clean-lines in the stalks to a pasture or meadowlot, and thus Insure clean-lines in the stalks to a pasture or meadowlot, and thus Insure clean-lines in the stalks to a pasture or meadowlot, and thus Insure clean-lines in the stalks to a pasture or meadowlot, and thus Insure clean-lines in the stalks to a pasture or meadowlot, and thus Insure clean-lines in the stalks to a pasture or meadowlot, and thus Insure clean-lines in the stalks to a pasture or meadowlot, and thus Insure clean-lines in the stalks to a pasture or meadowlot, and thus Insure clean-lines in the stalks to a pasture or meadowlot, and thus Insure clean-lines in the stalks to a pasture or meadowlot, and thus Insure clean-lines in the stalks to a pasture or meadowlot liness in husking. Stock will eat the

Recoing Frost Out of Cellars. During the coldest nights of win-

that but little oil is consumed, and, f necessary, it is raised toward morn on the approach of winter since try-ing this expedient, and have kept out the frost with much less expense than was required in banking up the foun-dation walls with earth and straw The heat thrown off by a central draft lamp is very great, in proportion to the size of the flame, and could be utilized to protect house plants in the windows and those stored for winter in cellar or cold-pit. A lamp of this pattern can also be attached to a window box, so as to give bottom heat in starting early exetables, flower seeds and cuttings, thus giving the amateur many of the conveniences of a greenhouse or hot bed.

Why Should Cows Be Tested? The question may well be asked why cows should be tested. It is to de-termine the quality of the cow. Animals vary very much in their power to secrete milk, and also vary as to the proportion of butter fat contained in the milk product. Two cows fed upon precisely the same food and in equal quantities may vary largely in the butter product. Again, two cows so fed may give precisely the same product, while if the food be increased the milk or butter product of one may be also increased and in the other remain unchanged, for the reason that she has reached the limit of her production, while the other has not. that case—where the limit is reached—the use of any extra or additional food is simply an unnecessary waste. As more and more light is upon farming operations through the medium of experiments, the furmer can discover the importance of the exercise of good judgment. Food that is giving no returns is simply wasted when fed to an animal.

Floor for Hog Pecding: The floor, says Farm, Stock and Home, is built adjacent to the corn erib for convenience in feeding, and is just the height of the bottom of a wagon bed. When it is necessary to load hogs for market the wagon is

HOG FEEDING FLOOR. to the platform, the end board taken out, a gate in the fence opened, and without noise or trouble the pigs are enticed into the wagon In feeding, only so much corn is thrown on the floor at one time as the hogs will cat up clean. The floor is cleaned off every day. The hogs are not fattened on corn alone, but are turned out night and morning to case their corn ration on the feeding tioor. Peas, while they last, and steamed ground feeds make up the between times rations to the fattering hogs

No titlable land is ready to go through the rigors of a winter until its covering is clean, free from patches and clear of vermin. We cannot say too much on this subject, because it is of vital importance. Rubbish of kinds is but a harbor of vermin thinch bugs, white grubs wire worms all have their several habits, but they have one in common — they harbor under rubbish. Now, if you want the delectable satisfaction of sleeping sound the coming winter, free from all fear of insects, mildew or fungus next season spend every moment pos sible in clearing up the farm before winter comes. Make the inclement elements next winter kill your bugs. or the life giving elements of spring and summer will repeople your land and ruin your crops next season.

the elements as your destructive police. - Exchange. for ing it would necessarily have on the of juice future of dehorning in this State. Pickle The trial came to an end in a victory for the defendant, the judge holding separated from barley straw by rethat the intention evidently was to benefit the cattle; that the charge of cruel and wanton treatment could the boiling point, add a little mace not be sustained by the evidence pro- whole red pepper, a few bits of cinna beards to fall not be sustained by the evidence produced.-National Stockman.

Let Work Be Well Done It is not what we do, but how we do it that affects results. A small matter well attended to is better the important duties devolving upon the farmer.

Setting Strawberries. It was formerly supposed that in order to secure success, strawberry plants should be set early in the spring or in the fall; but all that is necessary is favorable conditions. We set in the month of June and gave more easily gathered up and saved a good watering, and had no difficulty in making the plants grow, which are doing nicely. The principal point to feeding ground. -Ex.

Good for Pears.

I keep out the frost by placing a covery of a remedy that has proven lighted central draft lamp on the cel-lar floor. The flame is turned low so, cracking, and it consists in a free sprinkling of air-slaked lime on the surface of the ground under the tree. ing. I have not banked up the house It has been tried in a number of cases and has not been known to fail.

Pure Water for Stock.

Live stock should be furnished with ure water. If they are now obline to quench their thirst for the greater portion of the year from a pond or slough hole, this condition should be changed by the use of a well and pump. The water can be raised cheaply and in sufficient quantities by a windmill.

General Farm Notes An excess of manure is injurious to

rapes.

stock.

LATE cucumbers usually make the est pickles.

KEEP your watering troughs scrupulously clean.

For fruit trees one pound of poison to two hundred gallons of water is the proper amount. TAKE time by the forelock and al

ways be in readiness for the next work on the farm. SHEEP restore to the soil a larger proportion of the elements they take from it in grazing than do any other

OLO, sound hay, and a liberal raion of oats, with a very little corn s hard to beat for the farm work team.

LIME is the best absorbent that car e used in the poultry yard and house. It destroys had odors and kills disease

MILK and cream are very suscepti-ble to odors and should not be kept in cellars where there is anything that will contaminate.

KEEP a strict record of your feed oills, egg records and sales of poultry, and at the end of the year sum un It will prove that keeping hens pays, Ir farmers would study the many vays in which clover can be made a paying crop they will sow a larger creage next year than they have been doing.

THE American Cultivator says tha Hungarian grass, is not only a good hot weather crop, but succeeds on land that in early spring is too wet for cultivation.

THE policy of taking everything rom the land and adding nothing to ruptcy, no matter how good the crops nay be for a while.

Good roads increase the value of ive stock, land, and living generally. If a horse can do one-third more work on a good road, then his value is increased one-third:

Poultry Pickings,

Ir you buy an incubator get a good

ALL breeds of fowls have certain points in their favor. POULTRY are early risers and need heir morning meal early.

THE comb of a fowl may be condered as its health indicator. GET the guineas to roost in or near

he poultry house; they will act as guards. DUCKS raised especially for market thrive better without a pond than

with one. Mix a little flax seed or oil mea with their ration now in feeding the noulting hens. WHEN fowls are kept in large num

bers the risks of contagious are increased. POLLTRY must have every day care,

and judgment must be used in the BETTER do a little and do it well ther than undertake todo too much

and fail to do anything well. So FAR as it can be avoided, nothing nat will cause dampness should be used in the poultry house.

BALLOON MUFFINS—Take one pint f flour, half a pint of water and half pint of milk; beat thoroughly with an egg-beater; have gem irons grease and fill them two-thirds Bake in a quick oven twenty minutes, or until light and browned. Use no

CRAR APPLE JELLY.—Cut the ar sheeted by many objects allowed to cruelty in dehorning cattle, it being ples to pieces, but do not pure or refered from the stack, or from racks in held that the defendant was guilty of move the seeds. Fut into a stone the open air where the wind whisks violation of law in this treatment of jar, set the jar into a kettle of hot the heards about, often endangering his herd. The case has been one of water and let it boil half a day or the eyes of the animals. Should a special interest and has attracted more, then turn into a muslin bag, beard lodge in the eye, a pinch of fine widespread attention, both because of Hang it so it will drip; do not squeeze sait thrown under the lid will cause a its intrinsic importance and the bear it. Allow one pound of sugar for one

PICKLED ONIONS - Select small silver-skinned onions, remove with a knife all the outer skins. - Put then for three days into brine that will float an egg. Bring some vinegar to mon bark and a few cloves, then pour it hot over the onions which have been well drained from the brine.

PEACH FLUMMERY. - Line the bottom of a glass or porcelain dish with slices of stale cake not more than an difference. "Whatever is worth do inch and a half thick. Make a boiled ing at all is worth doing well." This custard out of a port of milk and the to permanence. A disregard of this sliced and sugared peaches, and over principle has resulted in much dambut the worst feature is in leaving principle has resulted in much dambar that a meringue made of the whites unseeded strips across the field, which ago and sometimes severe accidents of four eggs beaten stiff with four are useless to the crops. Weeds are and loss of life. To keep all implestables poonfuls of sugar.

WHOLE TOMATOES FOR WINTER se.-Fill alarge stone jar with ripe and perfectly sound whole tomatoes adding a few cloves and a sprinkling of sugar between each laver. Cover well with one-half cold vinegar and one-half water. Place a piece of thick flannel over the jar, letting it tall well down into the vinegar, then tie down with a cover of brown These will keep all winter, and not harmed even if the flanuel co lects mould.

CLAMS AND RICE. - Chop an onion tomatoes: fry all these for a few min utes then add a pint of small clams There are some varieties of pears that under some conditions of evil are steam with the dish covered for half ter, says a correspondent, I keep a greatly injured by cracking. #### THE SUNDAY SCHOOL

THOUGHTS WORTHY OF CALM REFLECTION.

A Fleasant, Interesting, and Instructive Lesson and Where It May Be found—A Learned and Concise Review of the

Gospel Preached at Antioch. The lesson for Sunday, Oct. 30, may be found in Acts 11, 19-30.

be found in Acts 11, 19-39.

"Scattered" is the word with which this lessons opens. Seeded is the litraral significance of it. The enemies of Christ thought they were destroying the truth; they were advancing it, giving it new lodgment in hearts prepared for its reception. As well scatter firebrands in a dry field or grains of wheat in plowed ground, as to think to quench the truth by dispersion. These were men full of the Suffit they could not be he truth by dispersion. These were nen full of the Spirit; they could not be silenced. God give us of such sort to

WHAT THE LESSON SAYS.

WHAT THE LESSON SAYS.

Now they. Going back to previous exents. Acts 8: 1.—Scattered abroadirists and the second of the second o

They sent, i. e., the church, not some bishop or overseer of the church. It looks as though a church meeting had been called to discuss the tidings. That he shall go as far as. One word in the Greek, the preposition unto or

until.

Were glad, "Glad" and "grace" are from the same root. (Charin-chairo.)

He caught the spirit of the blessing.

Cleave unto, or remain with. They had already accepted the Lord. He assured them that they was in the wight not. them that they were in the right path.
Full of the Holy Ghost and of faith

Full of the Holy Ghost and of faith. Hence he was quick to apprehend a spiritual work. — Added unto the Lord. Interpreting the "added" of Acts 2: 47, where church does not occur in the Greek.

To Tarsus. Where Paul had been in spiritual training of the Lord. — To seek Saul. The word refers to diligent search. Thus the Spirit leads.
When he had found him. It would be interesting to know what he was doing. Certainly he was prepared for the mission. A prepared man is generally sought out and found. — Were called. A peculiar word, signifying, first, to transact business with, hence probably to get a mark of designation. They were set down as Christians. Probably the word Christians. the word Christ was the one oftenes (Christianos)

Prophets. In the New Testament, hose gifted in the interpretation of

Scripture. The gift of prediction was subordinate.

Signified. Or made signs, the original meaning of the word.—Great dearth. Such a famine did occur in A.

According to his ability, or literally, as any one was in easy circumstances.

Relief, or for relief, i. e., for the purpose of relief. The word relief is

purpose of relief. The word relief is from the root whence comes our word cucuon. (placoneo,) Which also they did. Futting their good purpose into better execution.—Lidess. Greek, Presbyters. Doubtless no small sum was sent, as Antioch was at this time a rich city of 500,000 population. Benevolence is apostolic.

WHAT THE LESSONTERORES WHAT THE LESSON TEACHES.

And the hand of the Lord was with them. I fear we have been forgetting about "the hand of the Lord." We have about the hand of the Lord. We have not been taking God into the account. Man's hand, how weak it is, how often are we frustrated! But God's hand with us—that makes all the difference in the world, in two worlds. It changed the whole aspect of affairs with the early disciples. I have just been re-reading the life of Robert Moffat, the South African missionary. His was an example of faith in God. Over and over again he did that which to the worldly intelligence was folly. But he was obeying God's command and giving heaven a chance te come signally to his aid. And so God was glorified. Ah, if twere not for foreign missions; I fear sometimes the church would forget what sometimes the church would forget what faith is like.

Cleave unto the Lord. It is the secret of success in the life of heaven on earth. We must keep very close to God, or our celestial citizenship is a failure. This was the spirit of Caleb and Joshua who was the spirit of Caleo and Josaua who wholly followed the Lord their God. How unfortunate for Israel that the far-following spirit of the ten spies prevailed! Keep close to God. "Be yo followers of God, as dear children." Adoniram Judson wrote-down the resolution. "Resolved not to do anything which does not appear at the time to be well-pleasing to God." He was making God his best friend, and what a friend God proved to him. When I read this motto I can understand this life. Judson was following close after God. Are we doing so to-day? Are we keeping so near to him that we see at one the doors of opportunity-life throws open to us? I was reading it this morning from Thomas a Kempis: "As fron cast into fire loseth rust and is made altogether glowing, so the man who turned himself viscel for the force of the force of the force of the control of the closeth rust and is made altogether glowing, so the man who turned himself viscel force of the followed the Lord their God. together glowing, so the man who turneth himself unto God is freed from slothfulness and changed into a new nap."

The disciples were called Christians

The disciples were called Christians first in Antioch. A name perhaps given in deriston, but God has made it the noblest name in earth's vocabulary. I wonder when the people who are most accustomed to peruse these pages, and also the pages of the Book, were first called "Baptists." Doubtless it was a derisive epithet. "Anabaptists!" "Baptists!" Is there any one ashamed of it to-day? Then let him seek something better, if he can find it. My friend, the converted Hebrew has been tallier me better, if he can find it. My friend, the converted Hebrew has been telling me that even the blessed word "Zlon" was once a term of reproach. It signifies emptiness. Very well, "empty that he may fill." God takes the things that are not to bring to naught the things that are not to bring to naught the things. that are. Let us make the name Chris ian mean more and more, as the years of grace roll on.

MICHIGAN STATE NEWS

OCCURRENCES DURING THE PAST WEEK

Death of an Estimable Woman—Verdict Against the Michigan Central—Ugly Looking Affair at St. Helen—Dead Sheep,

Horses, and Cows.

From Far and Near. THERE have been eleven burglaries in Bay City inside of the past ten days. GEORGE LAKE was placed behind the bars at Saginaw on a charge of passing counterfelt money.

GEORGE SCHULTZ, a noted crook, received a sentence of five years for grand larceny at Saginaw.

DECKERVILLE would like to talk with any man who has a flouring mill and no place to put it. They have the place.

OLIVER VAN ALSTYNE, a farmer liv-ing three miles west of Dearborn Vil-lage, had nine covs and one horse poi-soned, and he cannot account for it: THE Saginaw police are on the look-out for a 16-year-old daughter of Milo Sutton, of Wheeler, whom he reports as having ran away from her home ten

days ago.

AT Jackson, C. H. Plummer secured a verdict against the Michigan Central for \$5,600. The sult was on trial in the Circuit Court for eight days and was an action to recover \$10,000, claimed to have been sustained by Plummer by fire in his lumber yard which was caused by sparks from a passing locomotive.

THE Universalists, like most other Christian churches, have their young. lays ago.

Christian churches, have their young people's denominational society. A meeting of the State Association of the Young People's Christian Union was held in Lansing. There are nine societies in the State, with a total membership of 328. A very interesting meeting was held.

AT Lexington. Mrs. Merrill, wife of A. W. Merrill, traveling salesman for the American Eagle Tobacoo Company of Detroit, and nice of the Hon. Arthur M. Clark, died at her residence of Bright's disease. Mrs. Merrill was a woman loved and respected by all who knew her. She left a husband; son and daughter. laughter.

SAGINAW VALLEY lumbermen are in-SAGINAW VALLEY lumeermen are investing heavily in Canadian pine. D. Hardin closed a deal for the purchase of over 100,000,000 feet in the Georgian Bay district, from John Charleton, of Lyndock, Ont., the consideration being \$175,000. Several Saginaw Valley firms have crews of men looking over Canadian timber limits.

dian timber limits.

ELIAS LYON, of Ray, Macomb County, counted his sheep the other day and found an unaccountable shrinkage in numbers. That is, it was unaccountable until he began to look around in the fence corners. The missing were eighteen, and he has found portions of six of them. What Ray now wants is a hunting match for a supper, with dogs counting 10.000 each. counting 10,000 each.

SOMEWHAT of a social sensation was caused at Monroe, when Mrs. Mary E. Beaublen commenced suit against Willam Ronan for damages in the sum of \$20,000, for breach of promise to marry. The parties are well known to nearly every one in that city: having lived there all their lives, and are highly respected. Mrs. Beaubien is about 44 years of age, and the defendant about 48.

Sr. Helen officers are investigating an affair that has an ugly look. A Pole, named Bouchey, drew \$50 and went to Beaver Lake. There he made the acquaintance of two strangers, also Poles, and, atter spending the day in drinking, they purchased a jug of whister and the purchased and started for St. Helen. The next morning a train ran over Bouchey's body on the track. The whisky and beer could not be found, and there was not a cent of money in his pockets. It is thought by many at St. Helen that Bouchey was dead before the train came along.

The first annual meeting of the Great. Camp K. O. T. M. Sick, Funeral and Accidental Association were amended to provide for a double certificate, whereby a member of class B can receive a double benefit by paying a double, assessment. The membuship of the association is 1,477 and is increasing rapidly. The reports of the officers showed the association to be on a goot footing, and that he affairs are ably manuaed. Follows. Sr. Helen officers are investigating

reports of the officers showed the asso-ciation to be on a good footing, and that the affairs are ably managed. Follow-ing are the officers elected for the ensu-ing term: President, Arthur Bassett, Dotroit; Vice President, H. W. Carey, Manistee; Treasurer, David Swinton, Saginaw; Secretary, F. M. Pomeroy, Port Huron: Chief Medical Examiner, Dr. W. C. Stevens, Detroit. The next annual meeting will be subject to the call of the President.

Fire was discovered in the basement of the printing establishment of Robert Smith & Co., Staté printers, at Lansing, which proved a stubborn one before it could be subdued. The loss is confined principally to the basement, which was occupied for press and stock room. The damage to stock is chiefly from water, and to the building from fire in the basement and front of the main floor. Smith & Co. estimate their loss at \$10,000. The fire is supposed to have originated from spontaneous combustion. The following insurance companies are involved: On the building, National, of, Hartford, \$1,500; Hamburg, of Bremen, \$1,500; Royzl, \$2,000. On stock and material, American Fire, of Philadelphia; Phomix FIRE was discovered in the basement American Fire, of Philadelphia; Phœnix American Fire, of Philadelphia; Fhomix of Hartford, German American, Queen of America, Commercial Union, Connecticut Fire and Insurance Company, and North American; \$1,500 each; National of Hartford, and Continental of New York, \$2,000 each; Michigan Fire and Marine, and Phomix of Brooklyn, \$2,000 each and Guardian of London

32,000 each, and Guardian, of London, \$1,200. THE Oxford Cornet Band has been reorganized, and Prof. R. C. Shaw has been secured as instructor.

FRANK WALKER, a young Fergus man of an investigating turn of mind, was picking a dynamite cap with a pen, when it exploded and splithis hand open.

when it exploded and split his hand open.

IN September, 1891, the Michelson & Harrison Lumber Company, of Grayling and Bagley, owners of large tracts of hardwood timber in the western part of Montmorency County, decided to locate a saw-mill there to cut it into lumber. The mill was completed in April, 1892, six months ago, and it is now in the village of Lewiston, on the banks of Twin Lakes, which has three hotels, 100 dwellings, 500 population, a railroad, postoffice, daily mails, two lumber mills, all manner of stores and shops, a \$2,500 ner of stores and shops, a \$2,500 school house, and a full complement of lawyers and doctors.

THE lot-owners in the Lansing Improvement Company's addition held a drawing, and the apportionment of lots was very latisfactory. There were 257 lots drawn. The company, which is composed of the lot-owners themselves, will realize about \$20,000.

A Mr. PLEASANT youth recently pur-chased a self-cocking revolver because he was going to journey to Stanton. It was a self-shoo er, and while he was standing on the depot platform at Stanton it went into action. The bullet blowed a furrow down his right leg,

spoiled a new boot, set fire to his trousers, and he hurried around behind the depot and extinguished himself.

Or are any of your friends? Don' tell, if it's a secret. But everyone even if pledged to a life of "single blessedness," is bound to be interested n weddings, and wants to know all the latest concerning them; and everyone will be thoroughly posted about all the details of a modern fashionage any style of wed ling, after read ing (as everyone should) the very fully illustrated and exhaustive article, The Modern Wedding Festival, Labor Statistics show that the daily published in DEMOREST FAMILY MAG wages of coal miners in that state have AZINE for November. All the girls and their mammas will enjoy reading about Kitty's debut ten, which is de scribed in such a sparkling manner in "A Debutante's Winter in New York," and will learn just how a coming-out tea should be conducted. If you ar interested in floriculture, you will ap preciate the advice given in "The Care of Outdoor Plants in Autuum." 'Columbus: His Story and His Coun try' is an especially timely article beau tifully illustrated. The stories are ex cellent; every one of the numerous departments, for which this distinct tively Family Magazine is noted, is full to overflowing with good things and there are nearly 200 illustrations, including a superb tinted portrait of Mrs. Grover Cleveland. Altogether What do you think of it? Ex-Judge this is an excellent number, in which DEMOREST FAMILY MAGAZINE is only \$2 a year; or single copies, 20 cents Published by W. Jennings Demorest.

The Century Magazine in 1893.

15 E. 14th St., New York.

It would be hard for a person who cares for good reading to make a bet ter investment than a year's subscrip to the Century Magazine. No region is too remote, no expense too great, if it will only produce what the Century's the magazines. English or American.

The November number begins a new volume and contains the first chapters of a powerful novel of New York so ciety, called "Sweet Bells Out of Tune," written by Mrs. Burton Harri son the author of "The Anglomaniaes."

In this number begins also a great Science." opening with "Does the Bible contain Scientific Errors," by Prof. Shields, of Princeton, who takes decided ground that the Bible does moment, and who most interestingly states the case from his point of view

An important series of letters that passed between General Sherman and his brother Senator John Sherman are also printed in November, which number contains also contributions from the most distinguished writers, includ Grover Cleveland, in order to placate ind an article by James Russell Low-

The December Century is to be Christmas pictures, -and in it will be el of life in Colorado, "Benefits For got" by Wolcott Balestier, who wrote "The Naulabka" with Rudyard Kip-

Four dollars will bring you this splendid magazine for one year, and certainly no cultivated home can afford to be without it. Subscribers can remit directly to the publishers, The Century Co., 33 East 17th St. New York. They should begin with Norember, and so get first chapters of all the serials, including "Sweet Bells Out of Tune."

onk prevented us from giving us exkind pabulum it gives its readers. #### OLD CRIS' CROSSING DECLARED TO BE AN ALL-FIRED FOOL.

A Poem by Albert Edmund Lancaster Tell lug in Magnifleo Verse How Cristofore Colombo Found Us Out Four Hundred Years Ago.

Thought His Cranium Cracked

The Salamanca Council sat, four hundred Years ago. To ponder what Columbus said, and answe yea or no

He told-them if they gave him men and ships enough to sall.

He'd Asia seek by salling west, and find it without fall:

He promised to convert the Khan (who ruled in Belocchistan

Or somewhere near), and make of him a reputable Christian:

He swore he'd plant the Spaulsh flag wherever there was land. ever there was land; n Isabelia thus to boom, likewise King Ferdinand.

Then Talavera found his feet-a school Then Talavera found his feet—a schoolman wise was he—
And shouted, "Do you mean to say there's
land across the sea?
Alut you aware the world's so big 'twould
take a ship—confound it!
The fusiest sailing ship we have—three
years to get around it?
Mest probably the moment you got out of
sight of Spain most probably the moment you got out or sight of Spain
Your boat would slip clean off the earth and not get on again.
Odds bodkins! Leave the Khan alone: a heathen, let him rule;
Go comb the wool your father combed; don't be an all-fired fool!

Then up and spake another crank: "You mustn't take it ill.

My stating that in sailing west you're sailing down a hill:

And when the bottom of that hill you reach, with shits and men.

Please tell us, Mr. Christopher, how you'll sail up again?

Besides, there isn't any sky down there, where you're a-going:

You'll die of hunger and of thirst; it's halp to me that little?

Then up and spake another crank: "You

Then spoke Columbus: "Gentlemen, that

He saw it wasn't any use to talk; the Balamanca Convention swore they'd never seen in all their lives so rink a
Fanatic as Columbus wast a lunatic they
called him.
He tried to join the Travellers' Club, but
all his friends blackballed him.

all his friends bluckballed him.
The learned prelates jeered at him (as they returned to Prado);
As people always will, you know, when you don't think its they do.
The scholars passed him with the smile conjempt will he'er refuse ye.
While at a convent gate he begged for bread in Andalusia.

Exclaimed the prior who found him there—
his name Juan Perez—
"To see you badgered so, it makes me tired
—I mean it woarles.
Eince I to Isabella um, or, leastways was, Why couldn't I repair to her, and act as in-He found the Queen at Santa Fe, surrounded by her ladies:
Ebe sent him back enriched with twenty
thousand maravedis:

He poured them at Columbus' feet: "The Queen is at her villa." He said; "Go there, and take your friend Alonzo Quintanilla

VIL.
Alonzo kept the Queen's accounts, in regis ters financial:
He noted everything she spent, with items of circumstantial.
With him was joined St. Angelo, a revenue In whom Columbus found a most invoterate

But backed by Isabelia's word, St. Angel raised the needed: bolleven. So Moya, too, a lady most delightful.

Her voice with theirs combined to make Columbus claim seem rightful.

Then Isabella's face grow grave beneath her crown Castillan.

The crown See Seem of the teasily be sold. work proceeded,
Till on the morning of the third of August,
ninety-two,
'Mid tears and prayers, Collembus left the
Old World for the Now.

The gems she owned might easily be sold for half a million.

\*Now, by my halldom," she said (it mat-stored not a particle) to dearned it at the grammar school o'cr many a book and chart.

A halidom in those days was a very-common article.

And if you don't know what it is, from having read neglectfully.

To Webster or to Worcaster I refer you most respectfully).

Whow, by my halidom, she cried, sand in good spoth, Columbus, six,

To several weeks the pure Castillan tangue was badly nangled.

Who was been the pure for inventing eaths eccentric and new fangled.

They showed him, then, if three days more no land revewled, his doom—

To dangle from the mizzon-mast or else from the jib-boom!

At length a bit of tangled grass came flouting down the wave;
It whispered of that magic cellme they'd almost ceased to crave.
The perfume of mysterious flowers, from shores unseen as yet.
Their senses touched with balm as sweet as hone is to regret.

hope is to regret of bright plumage fluttered round or hovered in the mast; hovered in the mast;
The biggest swearers in the crew stopped
short and cried "Avast?"
As slowly land emerged and green to wondering vision stood
As when God first created it and saw that
it was good.

Niv.
On shore the gentle Indians grouped, red Adams, dusky Eves.
Who know, perhaps, that figs were good, but didn't use the leaves.
The crew begged pardon of their chief, who sought their doubts to banish; sought their doubts to banish;
And thea they gave him "three times
three" (a tiger," too.) in Emanish.
They laughed, they cried, they danced,
they saug, with ardor unabated,
Around the god whom yesterday they ball
assassianted,
Thus, on that fair October morn, the man
as maniac branded.

as maniac branded.

Discoverer of half the earth, with tears of triumph landed.

Witinga lancoa.

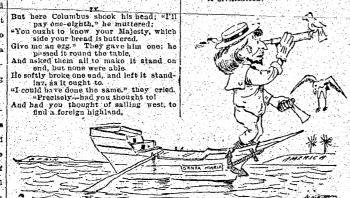

Xv.

We landed; and his crew began that reign
— of sale and barrer
To which the reckless redskin was decreed
to fully martyr.

The naked children of the wood, so faithful, fond, and frisky.

From Europeans first acquired an appetite
for whisky.

Then followed fast invading hosts from
each enlightened nation. each enlightened nation. Which builded up a new regime and called it civilization:

It wouldn't matter what you found or con-

her favorite cub lick.
So, from the clutch of rapine, rose
America's Republic! He paused for Isabella now, with beaming face descended
The throne whereon she sat, and thus the controversy ended:
"Bring forth my diamonds," she said, "my SHAMED THE GROWN FOLKS "Bring forth my diamends," she said, "my sapphires and my rubies; Columbus has a clever head; the rest of you are boobles.

Of All the Passengers a Boy Only Showed Natural Politeness. A delicate, timid-looking, sweetfaced old lady entered the train at Yarmouth. She hadn't traveled much, and she stepped into the smoking-car and sank into the rear seat timidly. A big man with his feet on the card table smoked a big cigar and smiled to see her. Two coarse-look-ing fellows saw her and made remarks to each other. A gentle manly looking traveler with goldbowed eye-glasses, raised his eyes, turned around, resumed his pa-per, and said nothing. The lady looked embarrassed at so much attention, but she evidently did not know that she was in the sanctum sanc torum of expectorating tobacco chewers and smokers. An elderly man was in the train, and we noticed that he did not thank it worth while to politely inform the little woman of her mistake. A fresh youth with broad-brimmed straw hat lighted a

And as a Roness will, with care, in shape her favorite cub lick.

rigarette and puffed voluminously.

There were fifteen people in the car, old men, middle-aged men, youths and two boys. Who moved The earth revolves around the sun; to prove the matter thus is

Read what Copernicus declares, and all the other cusses.

The Scripture says earth's distant ends 'shall soon be brought together;

The hortul who makes both ends meet deserve to be in feather.

Why should I not convert the Khan? My trip across the waters

Will laden me will gold enough for all your sons and daughters."

ric youth? It was neither, for one of the two little boys, a very pretty,

is brother had been sitting behind

their father in the car, arose, went along and whispered to her, opened the door and told her where to go.

It was pleasant to see the look of surprise that swept the motherly old face, and the look of gratitude that

weet-faced little fellow, who

The courtiers started; one and all forgot their polished bearing; It somehow seemed as if their Queen had done a little swearing. The jewels were never pawned (although the story's so been twisted);

Resides, no one like Simpson then in Santa Fe existed

I need not tell what happened then; you

followed it, and then, too, it was most pleasing to see her stoop, as we did, at the door and, lifting the little fellow's chin kiss him softly upon the Do you suppose the boy will ever forget it? A Wise Selfishness. A mother does spend herself too freely for her children when she gives up her own rights to them, effaces herself so that they do not recognize her superior claims, makes it difficult for them to "honor" her, as the fifth commandment demands that they shall do, writes Elizabeth Robinson

Scovil, in her helpful department in the Ladics' Home Journal. It is a wise selfishness that makes the mother insist upon keeping her proper place in the family as the crown and center of home, tenderly loving her children, serving them in all legitimate ways, but seeing that Three carnvels were fitted out, and so the they take their fair share of the burdens of life, instead of weakly bear

ing them herself. CHAWLEY CHUMPLEIGH says he has made up a whole lot of conumdrums that would be gweat if he could only think of answers to them. —Eimira Gazette.

THAT WICKED COW.

Unruly Creature that Charged the "The Grand Old Man." A cow that lately inhabited Hawarden Park, part of Mr. Gladstone's Hawarden Castle estate, was assured of several weeks' fame when she knocked down the Grand Old Man and nearly fulfilled the hope of the Tory party. A picture of all that remains of her is presented.

On the occasion of this encounter
Mr. Gladstone—was walking home
alone through the park. He had just left Mrs. Gladstone, with whom he had been driving in a carriage. Before he had walked many yards he

saw the cow and stopped to look at her. She also looked at him, and then, as if recognizing him, charged at him and knocked him down. Then she trampled on the venerable statesman and tried to gore him, but fort-unately her horns were fashioned in such a way that they were not dangerous. He did what he could to ward off her attacks with his cane As soon as she relaxed her efforts he sprang to his feet with an agility which it is useless to say few other men of 84 could have found even in these circumstances, and sheltered himself behind a tree. Finding the cow disinclined to assault him fur-ther, he ran home as fast as he could. This run was one of the most creditable pieces of work of its kind an aged Prime Minister has ever been known to do

known to do.

The Gladstones for a time tried to keep the affair quiet. In the evening Mr. Gladstone went to church, but the story reached the Glynn Arms and other hostelries in course of time and was the subject of much rustic British comment.

The cow belonged to a farmer bearing the fine revolutionary name of Paul Jones. It was trespassing in Hawarden Park, where it had already attacked a passer by. No explanation had been offered by the English newspapers of the cow's conduct. But it appears highly probable that she was an animal of enraged Tory opinions. She was shot shortly after her dastardly attack on the great Liberal leader. The tioner was one Thomas Bailey, who

THE COW AS IT APPEARS NOW

was unaware at the time he killed the would be assassin of her recent deed and consequent value. As soon as he learned of it he

hastened to get back from the butcher all that was left of the cow, that being her hide and horns. He sold the hide for \$25 and then prices began to rise. The jawbone and teeth went to one person, and Bailey kept the horns and skin of the face. He declares his intention of sending the calf, an innocent young creature without political prejudices, to the

Some Dainty Hangings. The work exhibited at the Chicago ociety of Decorative Art includes quite a number of pretty and hand-some hangings well worth descrip-tion, writes Maude Haywood in an attractive article profusely illustrated in the Ladies' Home Journal. One entailing comparatively little labor was worked entirely in shades of green, with Japanese gold thread in-The ground chosen was crinkled tapestry or rather a dull metallic green, and the design was a bold spray of large leaves and flowers extending far down the curtain. Some of the leaves were embroidered solidly, and some were of green plush applied and worked in long and short stitch in sliks either of a lighter or a darker shade than the plush, in order to gain variety of effect. The flowers had radiating lines extending from them rendered in green silk and gold thread worked side by side. The whole design was also outlined in the gold thread. The curtain was interlined with Canton flannel to give it lines substance. Another portiere was ecru-colored silk, with a lattice work across it and embroidered in silks. A border in conventional tulips extended across the lower part. Some curtains were made of a plain, heavy material and turned over at the top, the design being worked on the frieze formed in this way. One in gobelin cloth had large roses for the subject. A hanging which was a harmony of yellows and browns had marshmallows powdered all over the ground, and yet another, effective in dull, quaint coloring, had a band of Venetian embroidery placed about one-third up,

Fortile Alaska. The nature of the whole land can be roughly divided into three condi-tions: Snow and ice fields bury the coast-range and choke up every hol-low; to the immediate north the vallevs are rocky and barren, but the vast interior beyond is richly clothed in luxuriant, regetation. Scientific kindly to the hospitality of the Oriauthorities theoretically mapped out giant ice fields as spreading over the in luxuries.

entire land from the Fairweather and Mount St. Ellas ranges north almost to the valley of the Yukon. Colossal heights mantled in never-

melting snow tower thousands of feet in the air, but within the shadow of these mighty uplands, in the sheltered hollows beneath, lie immense valleys carpeted in richest grasses, and gracefully tinted with wild flowers. Here in the summer a genial clime is found, where strawberries and other wild fruits ripen to luxuri-ance, where there are four and a half months of summer and seven and a half of winter. In June and July the sun is lost below the horizon only for a few hours, and the temperature though chilly at night, has an aver age of sixty-five degrees in the day time, -- Century.

THE NUMBER THREE. Some of its Curious Relationships Ar. Here Presented.

Much has been said about the magic number seven," but as all the digits, especially the odd numbers have much that is curious associated with them, our readers may find something of interest in this brief presentation of some of the curious relationships of the number Three First, we have the Trinity, or three in one of religion, and then there are the older Brahma, Vishnu and Siva of the Hindoos. Abraham, Isaac and Jacob are always mentioned together, and the sun, moon and stars constitute another verbal trinity. The lightning of Jupiter is always repre-sented with three forks, and Nep-tune's spear or trident had three prongs. The beginning, the middle and the end are three matters usually mentioned together. Cerberus, the watchdog of the infernal regions, is represented in mythology as having three heads. The Pythian sat on a three legged stool, and tripods and derricks with three supports are very common. We have three meals a day, and morning, noon and night are the three demarcations of the day of twenty-four hours. On most pub-lic work, in mills and in mines, men work in three shifts of eight hours each. The sun is Sol, Apollo, and Liber, and the moon is Luna, Diana, and Hecate. The Sabines prayed three times a day and Mohammedans do likewise. A period of three years is a usual one for mem-bers of the various municipal boards to serve, one-third of the whole number going out each year. Old medical books tell of remedies to be shaken three times, to be illtered three times into a like number of dishes, and to be taken or applied three times to effect cures. The surface of times to effect cures. The surface of the earth has air, land, and water. There are three witches in "Macbeth' who "round about the cauldron go." The triumvirs of ancient governments are frequently mentioned in history. Two eyes and one mouth history. Two eyes and one mouth make the three flat openings of the face, and the ears and nose make the prominent features of the head-"Yesterday, to-day, and forever" are three common divisions of duration Bread, meat, and potatoes constitute the leading articles of our food, and tea, coffee, and water are the common drinks. The prominent features of a female society meeting are giggle gabble, and gobble. The three kingdoms of Nature are the mineral, vegetable, and animal. A circle may be made to pass through any three points not in the same line. In all governments we have three

legislative, judicial, and executive. Mechanics require three things, a knowledge of the material uponwhich they are to operate, the tools with which to effect the operation, and thirdly the skill to effect the operation. The story of man on earth is his birth, life, and death, and his abode is earth, heaven, or hell. Three-bladed pocketknives and three-tined forks are the most common articles of the kind in general use. Armies are composed of infantry, cavalry, and artillery. Three years are ordinarily occupied in prepar-ing for college, and the same time is required for a course of professional study. A hunter needs a gun, pow-der, and ball, and a fisherman requires a hook, line, and rod. A family must have father, mother, and child. A dude is only fully equipped when he has an ill-fitting suit of othes, an eve-glass, and a cane Every insect, like a fly or a bee, is devided into three distinct parts. publish a paper three departments are necessary—the editorial, business, and mechanical departments. Judas betrayed the Savior for three times ten pieces of silver. There are only three fundamental colors, Three barlycorns make one inch, three feet make a yard and three miles constitute a league. Three masts are common for sailing vessels, and three-story houses are most pumerous. It has long been a custom in England to print stories in three yolumes. "Three cheers for the red, white and blue," is a line familiar to every child, as are the red, white and blue colors of our national flag, and the colors of a parber's pole. Three months make a season. Many plants, like the clover, have three-lobed leaves. Lemons, sugar and water make the most refreshing beverage for these warm days. In mythology there are three Fates and also three Furies. A rather pretty objection to the number three is found in the

distinct general departments-the

How happy I could be with either, Were 'tother dear charmer away. Some fevers run three weeks. Three times the magic number seven makes a man "of age." The three days of grace are well understood in banks. The tricycle and the three borses in Russian vehicles and the three wickets of the cricket game are other ets of the cricket game are other illustrations of the curiosities of the number three. To say all these things requires pen, ink and paper, but the bettom of this third sheet of paper warns us to end this essay, and we will do it with the proverblal exwe will do it with the proverbi-pression, "Three-times and out."

GERMAN physicians class cholera as a filth disease. They contend that in communities where premises are kept clean and sweet, and only pure food and water are taken into the system, the people have little or no cause to fear the disease.

The cholera bacilli is said to take

THE Prison Trusty, a little paper published by the inmates of Lansing (Kan.) penitentiary, bear as its motto the legend, "The 'pen is mightier than the sword." In its local columns it urges the ladies o Lansing to furnish it with society notes, and that they do is evident from the information contained in that department of the paper. It is the custom of man in a free state to speak lightly of "society columns," but even then he reads them on the sly. When he is shut up, as the sly. When he is shut up, as the "Trusty" proves, he hungers and thirsts for them.

A CONNECTICUT owl has deliberately committed suicide. There is no authentic report as to the owl's politics.

Tasks That Must Be Done. Nature has assigned important tasks to the liver and the howels, and being mutually dependent unon each other for the regular and pendent upon each other for the regular and adequate discharge of these tasks, a cessation of work by one causes the other to lapse into inactivity. The tasks of secretion and evacuation must be performed, or the system is poisoned and disordered. Moreover, fatal inflammation of the bowels or abscess of the liver are apt to ensue if inaction of these organs is allowed to a wheeled. The dangerous tendare apt to ensue if inaction of these organs is allowed to go unheeded. The dangerous tendency should be checked at ih: outset with Hotstetter's Stomaoh Bitters, an anti-billous specific and laxative without a peer. Never does this medicine cause a quain of the stomach or uncasiness of the bowels. It does its reformatory work pleasantly though with reasonable activity. It privents malaria and rheumatic disease, kiney complaints, and relieves dyspepsia and nervousness.

First Tomatoes in Yankeedom. It has only been eighty-one years since the first tomatoes were introduced into America. The original plant was cultivated as a vegetable curiosity at Salem. Mass. ialem, Mass.

MRS WILLIAM MURDEN, 197 Third Sh. Albany, N. Y. gives it the meed of praise, as follows: "I have used Dr. Bull's Cough Syrup and find it has no equal. No tamily should be without it."

THE father of Rabelais, the French satirist, was a servant in an inn, or, some say, an inn-keeper.

Advice

to

Ailing Women

Free.

Countless letters are received by us from ailing women in all parts of the world, seeking advice. All are answered in a prompt and careful manner, giving each the benefit of the great library of reference compiled during a woman's life's work among suffering women. These are the largest records centerning. Female Complaints in the world. Thousands of women have been benefited by Mrs. Pinkham's advice after all other treatment had failed. Don't throw away this chance. Write us about your case. It will cost you nothing, and may save your life. Your letter will be received, and answered by one of your sex. Correspondence strictly private. We never publish even a letter of testimonial without the person's unqualified consent.

Correspondence treety surveyed. Address in confidence. LYNN, MASS.

Correspondence freely answered. Address in confidence.

Did vou ever see a sickly baby with dimples? or a healthy one without them?

A thin baby is always delicate. Nobody worries about a plump one.

If you can get your baby plump, he is almost sure to be well. If you can get him well, he is almost sure to be plump.

The way to do both—there is but one way—is by CARE-FUL LIVING. Sometimes this depends on Scott's Emulsion of cod-liver oil.

We will send you a book on it: free.

All the Pomp and Pride of Military Forms
—Over One. Hundred Thousand People
Cheer the Eloquence of Depow and Watterson and Hear the Vast Chorus of Five
Thousand Voices Attune the Melodies of
the Dedicatory. Ode—An Elaborate Diaglass of Proptechules.

The World's Columbian Exposition has been formally opened.

The series of celebrations consequent upon the dedicatory exercises was insugurated in Chicago's streets. augurated in Chicago's streets Thursday morning, when the gorgeous civic pageant marched before delighted thousands. The command which put

by the appearance of the tro WIND.

In motion the mighty column of nearly a hundred thousand opened an event that will go ringing down the ages as the most brilliant page in the history of the most brilliant page in the history of a great and prosperous nation. No such multitude as surged through the streets has Chicago ever before seen. Political conventions with their crowds, and clamor were left far behind, and the scene on the down-town thorough-fares as the great parade moved off will be long remembered alike, by Chicagonas and by the visitors who through the city.

large as the great parade moved on whit be long remembered alike, by Chicago-ans and by the visitors who through ans and by the visitors who through the city.

It was close to the neon hour when the vanguard of stalwart policemen, spurred their restless horses and whoeled into line. General Miles and his brilliantly uniformed military afds, and the more brilliantly attired civilians of his staff, came into view, and prescribly the advance guard of that vastariny of 100,080 men was in motion. Everywhere along the line of march the distinguished men as well as the organizations making the most striking displays were greeted with enthusiastic cheering. Though the son had hid himself, behind a bank of clouds, and the sky looked down with a lowering face upon the moving displays. bank of clouds, and the sky looked down with a lowering face upon the moving display of animation and colors, nothing could damp the arder of the crowd, and nothing that was worthy escaped their notice. From the grand stand on the Adams street front of the Government Building, Vice President Levi P. Morton, the members of the Cabinet, the Supreme Court, and diplomates from all the nations of the earth witnessed the grand civic parade as it passed in the grand civic parade as it passed in

review. In the streets there was a mobilit cannot be called by any other name. This was essentially people's day in the series of ceremonies. Wednesday the series of ceremonies. Wednesday night's grand ball at the Auditoriam was a notable event, but the participants were confined to the upper ten in official and social life, for thevernors, legislators and diplomats; Thursday night's military ball was for the same classes. Friday's military parade was confined principally to the limits of the fair grounds, to which admission could

THOMAS W. TALMER

be had only by card of invitation. But Thursday's show was wide open to whoever could get a point from which to see. The bootblack and roustalout, or the laborer, was as free as the mil-lionaire or pet of society.

DEDICATORY EXERCISES.

Impressive Ceremonies in the Great Man-ufactures Building. Friday was the great Columbian dedication day proper, and on this day the country has been preparing for months

was given.

"The day's exercises began with a salute of twenty-one guns on the Lake Front.

At 3:15 o'clock the dedicatory parade was started. Gen. Miles and his staff came down the boulevard at the head of a gittering company of United States troops. The even lines of yellow plumes rising and falling in unisof, the steady trot of the horses, the quietness and precision of every movement, was a revolation to speciators unused, to military pagennis.

The staff of Gen. Miles was followed by the mounted band. Then came troop after troop of cavalry, presenting a solid line twelve deep, extending from curb to curb. Three troops of white cavairy,

cavatry, black and smilling—that is the way they came.

After the cavatry was another mounted band, and then appeared artillerymen, who rattled over the uneven cedar blocks about 12th street at a smart trot. The regular artillery were followed by a battery of the National Guard. The

a battery of the National Guard. The volunteer boys were not so smart as the regulars, but they looked very business-like and full of powder.

The secort was not yet finished, for smoothly and silently came a troop mounted on wheels—the Toledo cadets. The people gave the sixty men a cheer as they passed which soemed well deserved, for their soldierly appearance and the even manner in which they handled their iron steeds were very noticeble.

oticable.
The brilliant escort which had passed The brilliant escort which had passed was none too brilliant for the array of power, wealth, and intellect which was now to follow, when the Governors of the country and the men who have directed the affairs of the Exposition rolle and drove in public parade to the dedication of the World's Fair.

First in the line of carriages which followed the troops was the highest representative of the Government of the United States, Vice President Morton, and escort. In company with the Vice President were President Fairer of the National World's Fair Commission and ex-President Baker of the World's Fair. Then followed the Governors of the different States and other notables, with their aids and attendants; the whole making a glittering and imposing spectacle the world will be recombed as long

making a glittering and imposing spec-tacle that will be remembered as long as the dedication ceremonies shall hold a place in history. The parade marched down the gayly decorated boulevard to Washington Park, where the military review occurred.

Starting for the Buildings.

After this event was over the cavalry

After this ovent was over the cavalry procession as an except started from the Washington Park reviewing stand, marching up Palmer avanue and through Midway Plaisance to the entrance of the grounds. The route along the whole line was rich with decorations of every description, the colors of all nations being thrown to the breeze in great profusion, with the flags of America and Spain the most prominent. At the junction of Cottage Grove avenue and the Plaisance a squad of police under Licut. Powers was stationed, at the Woodlawn intersection was Licut. Rehm with another squad of police, while between the forces of Powers and Rehm there was a space of about half a mile in which there were no police. Into this gap the crowd rushed without hinderance and soon became unmanageable. All was confusion and the crowd able. All was confusion and the crowd threatened to inter ero considerably with the progress of the procession. But everything was later put to rights

录体例的

had been held in reserve at the grounds to welcome the parade. The coming of the troops soon restored order among the crowd. The people obeyed with groat good humor when the soldiers, who had been formed in line down each side of the road, ordered them back. In a few minutes the whole stretch of road unprotected by the police was picketed by the troops. After the procession had passed the soldiers fell in behind and formed a rear-guard to the parade. When the military parade entered the grounds over the viaduct it made an almost entire circuit before dispersing at the end of the park. Then the dignitaries and invited guests began to enter the big Manufactures Building and the great procession was over.

taries and invited guests segan to enter the big Manufactures Building and the great procession was over.

Within the Manufactures Building.

The scene in the great hall, as viewed from the platform at 10 o'clock, was thrilling. It was a spectacle that in coming years will mark an epoch in the march of the nations of the earth. And when away on in the time that is to come American history shall be written, no man, in the chill of calm thought will be able to paint with words the dedicatory scene. Does one who was not present gain any notion of the meaning of fifty acres of packed humanity? Does he get an impression of vastness when he knows that \$t. Peters at Rome might be put within the great structure and with room left? What does it mean to say that 100,000 persons may be comfortably seated and room left for 75,000 more?

The chief decorations in the great

The chief decorations in the great building were at the rear of the grand stand and arched over the broad, earpeted alse through which the dignitaries sought their places on the platform. From the root streamers of bunting of yellow and red and white drooped down from the iron girders to the sides of the great iron arches. There was a background of great flugs with the stars and stripes' drawn smoothly at points and tastefully draped in others, while in the center an eagle carved in stone formed the nucleus of a glorious standard of

center an eagle carved in stone formed the nucleus of a glorious standard of colors. On one side of this setting, hanging from away up on one of the iron arches, depended the banner of Spain. There was also displayed for the first time on a near-by arch the official ban-ner of the World's Columbian Exposi-

ner of the World's Columbian Exposition.

Out upon the great, vast floor, under the arches and the depending flags, a forest of chairs had been piaced, and when the crowd had come in and the people had gathered, a great, hervous, moving sea of inunantly moaned with ebbing him and buzz of talk and comment. The gallery up among the arches of iron and surrounding the entire building was filled and blackened with humanity.

Imagine 10,000 human faces in a bunch in the center of a great field about whom are standing nearly as many more persons. See the stand filled with his singers and distinguished guests and hear the preliminary operation for the music which is to come. Diffuse over this entire seene the growing nurmur, which at times mounts to a roar, and a faint idea of the seene may be pictured on the mental vision.

To one who has never seen the be-hemoth buildings in Jackson Park, it may be impossible to give an adequate idea of the colorsal magnitude of the great spectacle. National conventions

was as nothing, a black spot mixed and ground into the color of the picture.

When the multitude assembled the people came drifting in granular currents along the narrow avenues. Further along they closed upon each other in the steady push forward until it was difficult to tell one speek from another. Then the natural compression of a jostling crowd did the rest and they were molded into that mighty solid block, filling to the outer limits the floor of the largest building on earth.

Arrival of the Pageant.

Arrival of the Pageant.

It was just 1:45 p. m., when the impatient crowd caught sight of a glitterpatient crowd caught sight of a glittering uniform at the back of the broad stairway leading to the speakers stand. Milward Adams, manager of the seating arrangements, followed the guard in uniform, who had cleared the way, and proceeded down the stairway before Director General Davis, muster of ceremonies. Then came Vice President Morton, Chauncey M. Depew, President Highnbotham, Mayor Washburne, Cardinal Gibbons, Archbishop Iroland, nal Gibbons, Archbishop Ireland. Bishop Fowler and Dr. McCook.

Bisnop Fowler, and Dr. McCook,
By the time the cheering and waving
of handkerchiefs had ended the speakers' stand and seats behind were embanked with the most notable gathering
of dignitarties and high officials ever
seen in this country outside the national capital. Chief of these, of course,
was Vice President Morton, who in his tional capital. Chief of these, of course, was Vice President Morton, who in his capacity as representative of the President and of the Government had the seat of bonor, directly in the front of the center. Next to him on his right were Bishop Fowler and Dr. McCook, while Director General Davis, master of ceremonies, was on his left. In a

suprising strength that his thought

whom he addressed himself. Citizens of Chicago, too, responded enthusiastically when he declared the city's greatness and wealth of promise.

Following the Mayor came readings by Mrs. Sarah Cowell Le Moyne, of New York, from Miss Monroe's dedication of the reading comprised only a fragment of the poem, alternating with verses sing by the chorus from with verses sing by the chorus from with verses sung by the chorus from music composed by G. W. Chadwick, of

music composed by G. W. Chadwick, of Boston.

As Mrs. Le Moyne finished reading Director General Davis presented her with a wreath on behalf of the women of Chicago. This was a simple affair of laurel leaves bound with yellow and terra cotta ribbon. The cheers that followed this act brought Miss Harriet Monroe, the author, to her feet, and she also was presented with a like memento.

Director of Works Burnham formally presented the designers, painters, and sculptors of the Exposition with commendative medals. Mr. Burnham's voice is not calculated to reach the galleries, and he made no attempt in that direction. As he took his seat he was met by the usual cheer, taken up in the galleries and echeed by the individuals language from the griders well up to the semicircular row behind the Vice President were Mrs. Sarah Cowell LeMoyne, who was selected to read a portion of Miss Monne's dedication ede; Gen. Goshorn, who was Director General of the Centennial Exposition; P. A. B. Widener, chairman of the Committee on Ceremonics of the National Commission: hanging from the girders well up to the

lianging from the girders well up to the dome.

Mrs. Potter Palmer's address, "Work of the Board of Lady Managers" was enthusiastically received. She was introduced by Director General Davis and received with a standing salute, in which the dignituatios joined. The President of the Board of Lady Managers acknowledged this reception by a modest to the standing salute, in the standing salute, in the standing salute, in which the dignituation of the Board of Lady Managers acknowledged this reception by a modest to the salute ner, chairman of the Committee on Ceremonies of the National Commission; Mrs. Gillesple, who was Prosident of the Woman's Board of the Centennial Exposition, and is the grandiaughter of Benjamin Franklin; Mrs. Potter Palmer, President of the Board of Lady Managers, and Henry Watterson, the dedication orator.

gers, and Henry Watterson, the dedication orator.

Across the aisle in a corresponding semi-circle were Mayor Washburne, Miss Monroe, who wrote the ode of the day of the Mayor Chauncey Depew and Cardinal Gibbons. Director of Works Burnham had a place mext to Mrs. LeMoyae, but was too busy to maintain it for any leagth of time.

It was a pleasant sight watching the great men banked in terraces while they waited for the tumult to subside and the programme to begin.

dent of the Board of Lady Managers aknowledged this reception by a mode of sthoward workledged this reception by a mode of sthoward watch waving down upon the waving of the Columbian, President of the Columbian Commission. The uplift. When 100,000 people is hand. His trumpet-like voice, his well—known features and the commanding of the commanding of the represented commanded the commanded the periods and emphasizing the national trumpts, as brief recital of national triumpts, coloring with a concise statement of the prospect was a brief recital of national triumpts, coloring with a concise statement of the prospect was a brief recital of national triumpts, coloring with a concise statement of the prospect was a brief recital of national triumpts, coloring with a concise statement of the prospect was a brief recital of national triumpts, coloring with a concise statement of the prospect was a brief recital of national triumpts, coloring the nation of the speciation of the greatness of the order than the concision of the commanding of the commanding of the commanding of the represented commanded the commanding of the commanded the commanding of for more enthusiastic cheering, which continued until the majestic "Hallelujah Chorus" sllenged it Chorus" silenced it.
Watterson Delivers the Oration.

Then came the two greatest features of a great programme—the orations by Henry Watterson and Chauncey M. Depew. Mr. Watterson abandoned his of a great programme—the orations byHenry-Watterson—and Chauneay M.
Depew. Mr. Watterson abandoned his
manuscript when Director General Davis announced his name, and walking to
the front of the stand took his place
before a bewildering tumult of appleuse
and waving hats and handkerchiefs
from the throng that had risen to greet
him. Without hositation, except when
interrupted by applanse, the speaker
plunged into his subject. His earnestness, the rich tones of his volce,
the commanding personality of the man
impressed eyen those who could
not catch his words. Rapidly he
reviewed the "Columbian opic," pursuing on to scan the progress of American
civilization, closing with an invocation
of the greatest solemnity. As he uttered the sentences "God bless tochildren and the mothers! God bless
our country's flag!" a rift in the clouded
sky sent a flash of sunlight through the
curved roof that centered on the rugged
fligure of the orator, as though a benediction had been vouchsafed in answer
to his plea. The crowd caught the suggestion and became as still as walling
petitioners before the heavenly thronemute witnesses to the orator's power.

Chauncey M. Depew's Address. mute witnesses to the orator's power.

mute witnesses to the orator's power.

Chauncey M. Depew's Address.

When Mr. Watterson roached the climax of his peroration and stepped toward his seat, there was an instant's hush, followed by dealening cheers that broke out again when Chaucey Depew was announced. Mr. Depew's style was in striking contrast to the Kentucky editor's, but his achievement was parallel. Rending his speech, he was seemingly oblivious to the printed words. In moments of excitoment he waved the manuscript in emphasis, never losing a word or abating for an instant his perfect command of the striking phrases. His voice; forced to the volume of a great organ, rolled out striking phrases. His voice forced to the volume of a great organ, rolled out over the crowd and held it as with a chord of steel. Decemently some ab-sorbed listener, wrought by the stirring sentiment, spoke his approval and start-ed ejaculations of assent, but the orator

never wavered. In places the theme changed from Homeric solembity to a lighter vein, and moved the hearers to laughter, but it was only to relieve the tension for an instant—light touch in a pieture of

Instant—light touch in a picture of titante lines.
When Mr. Depew had concluded, there was no question as to his fittumph. He had reached the hearts of his listeners and they responded with reverberating acclaim, a tribute such as even so great an orator could but feel deeply.
Hy this time approaching night had turned the great hall into a cavern of eerie shadows. Are lights suspended in clusters warned the tired people of the close of day. Some departed, filtering out in long pedestrian lines, while those who remained erowded closer to

"RESERVED SEATS" IN WASHINGTON PARE the front to hear the beautiful closing prayer by Cardinal Gibbons. Then came the chorus, "In Praise of God," the benediction by Rev. H. C. McCook of Philadelphia, and, at 6 o'clock the farewell words of Director General Davis, announcing the formal close of

#### ENGLISH CONGRATULATIONS. Evidence of the Intense Self-Reliance of Wonderful Country.

The London Post, referring to the dedi-cation of the World's Fair buildings in Chicago, says: "Nothing but the intense self-reliance of a gooderful country could have started and completed a spectacle s unique. Englishmen join in congratulat unique. Englishmen join in congratulating their kinsmen upon an ovent of peaceful and progressive import." The Chronicle says: "The cup of Chicago's
happiness must be full. The ceremony has been superlutive in every
respect. Although we may wince a
little at the drum roll of superlutives. Enlittle at the drum roll of superiatives, English congratulations must not be lackling."
The Tolegraph and the News agree that the directors of the fair could not have chosen a better must than Chauncoy M. Depew to deliver the Columbian oration. The Telegraph says: "Everybody here wishes the fair predictions prosperity." The Times says: "Well may Americans look with notice or so unexamiled a sight and. with pride on so unexampled a sight and listen with gratified self-esteem to the orlisten with gratuded sett-oscent, and mater who helps them to understand its full value and their own. It is a splendid spectacle. We fully recognize the qualities and efforts which produced it; and we offer our hearty congratulations."

#### CRUEL MATRIMONIAL HOAX.

A Louisville Church Crowded Throng Bogus Invitations to a Wedding. There was such a jam at the regular prayer meeting of the Covenant Presby

terian Church, Louisville. Wednesda evening that the regular attendants wer ovening that the regular attendants were amazed. The strangers came on an invitation to witness the marriage of Miss Fanny O. Adams and William T. Huxley. Finally an announcement was made from the pulpit that the layitations were a houx. Scottish Rite Masons in Council.

The Supreme Council, Scottish Rite Masons for the Southern and Western States, who held their blennial council at Washington, by a large majority decided to hold the next blennial session at St. Louis. Propositions looking to amalgamation of this Supreme Council and the Northern Supreme Council have been submitted, and white it is thought union, will eventually take place it may be deterred for the years. A potition from the German so-called Cerneau Scottish Rite Masons ptaying for recognition was unanimously r

Sunday night train No. 31 of the Chicage and Western Indiana Road was twisted like a rope in an accident, at Forty-night and Wallace streets, Chicago. The third cat from the engine, containing seventy-five or one hundred persons, was twiried on its right side, landing on the statuon platforn, act that rolls. In this big mass of wrigat that point. In this big mass of wriggling humanity one passenger was killed

Disaster in a Mine. The train used for bailing the leadel coal dimmies from the mines at Music, ity, separated and came together a few minutes later. A young man named Hubbs was instantly killed, while another named Phillips, with four more whose names could not be learned, are thought to be fatally hurt. None of the crowd escaped unin-jured, and several were badly used up from gas and smoke from the engine.

A Kansas State Senator Hurt.
State Senator F. P. Harkness, of Clay
Center, Kan. Speaker pro tem of the last
Kansas Senato, was seriously hurt at McFarland, on the Rock Island, Road. In
stepping off the train he silpped and fell
state of the state of on the rail under the wheels. His right hip was dislocated, his right leg broken shows the knee, and his ankle was badly crushed. It is not thought that his is juries will result fatally.

Twin Exhibitions in Beligium. A dispatch to the Reuter Telegram Conpany, London, from Brussels states that the proposal to hold an international ex-hibition in 1805 in two sections—ond sec-

tion at Brussels and the other at Antwerp, connected by an electric railway—has been adopted, thus putting an end to the controversy between the two cities as to the Cholera Lingers in Germany.

At Hamburg there were two fresh cases of cholera Friday and two deaths. It snowed all the atternoon. There is no doubt that cholera exists in the district of which Coblenz is the center. Deaths from the disease are known to have occurred in that city and in Mentz and Polch. It is feared that the maledy is on the increase. Struck by a Foul Ball and Killed.

At Perry, N. Y., during a game of ball, Thomas Buell batted a foul ball which flew among the spectators and struck David aged 18, over the heart, killing him

Run Over by an Electric Car. Joseph Thompson, one of the oldest citizens of Memphis, Tenn., was run over by an electric street car and fatally hurt. Mr. Thompson is 84 years old.

Was Divorced by Death. Doath beat the Wichita, Kan, district court in divorcing Mrs. Minnie Padrick-from her husband. Marshall Padrick. Judge Reed granted a decree, and had just signed the document when a messenger brought word that Mrs. Padrick had died an hour before

#### Fire in a Foundry.

The Stewart Brothers from works at Wich-ita, Kan., were partially burned. The loss is about \$12,000, fully covered by in-surance. Three years ago this firm lost its entire plant by free.

A. T. Stewart's Successor Dead.

At New York, Edwin J. Denning, senior member of the dry goods firm of E. J. Denning & Co., successors to the rotail busiof A. T. Stowart, was found dead in the both room of his residence. Death wa

to paralysis. · Three Trainmen Killed. Three men lost their lives in a railroad Three roen lost their lives in a railroad week at a highway crossing near Waverly, N. Y., on the Lenigh Railroad. Engineer Patrick Laven was standing on the free when a yard engine, in charge of John Gorman, came up the main line with a box oar in front and smashed into Laven's

Edwin Booth Very Feeble. Edwin Booth is able to be about, but is not permitted to venture out of the hotel. He is constantly guarded by his daughter and her husband. He is in very feelile health and likely to drop off at any moBATTLE TO THE DEATH

Italians and Hungarians Engage in a Con-flict of Extermination. The little mining town of Milnesville,

Pa, was, Sunday, the scene of a race war, and as a result one man lies dead, three fatally injured, and there are thought t fatally injured, and there are thought to be about twenty seriously wounded. Milnesville is situated on the mountain to the north of Harlotton and is surrounded by numerous mining patches, mostly populated by Hungarians and Italians. For years trouble has existed between these two facilions. Numerous lights have taken place from time to time and a numerous land. two factions. Numerous-fights bave taken place from time to time and a number of deaths resulted, but never before did they rise in a body to face each other. Euraday the unines were idle and the men were all at home, or lounging about the woods. To enjoy this rest they usually provide themselves with beer and whisky. At 2 o'clock in the afternoon while a perty of Hungarlans were chatting among themselves they were approached by several italians. All were ceiling filterious and exchanged greetings celling hilarious and exchanged greetings feeling hilarious and exenanged greetings with the Huugarlans. A short discussion ensued, when it is alloged one of the Italians stabbed a Huugarlan. This was the signal for hostlittes to begin, and immediately there followed a short but furious battle.

#### MINER LAW IS UPHELD.

Pronounced Valid by the United States Supreme Court.

The Supreme Court of the United States has uphed the so-called Miner law. The court decided that the act dividing the Wolverine State into districts for the elec-Wolverine hate into districts for the elec-tion of Presidential electors is not obnex-lous to the provisions of the Constitution conferring upon the State Legislature the power to fix the manner of choesing elec-tors, nor of the fourteenth amoudment, and the judgment of the Michigan Supreme Court upholding the law is affirmed. The act is held to be invalid, however, in one act is held to be invalid, however, in one unimportant detail—so far as it conflicts with the act of Congress of 1887 Felating to the time of meeting of the electors. The opinion was rendered by Chief Justice Fuller. The Miner law provides for the election of Presidential electors by following resistant districts instead of by the State tarse. Instead of securing fourteen at large. Instead of securing fourteen electors from Michigan, as they naturally expected, the Republicans will, as a result get only ten, and possibly not more than nino votes. The Democrats are certain of four, and they claim they will get five of them. The decision is one of the most im-portant delivered by the Supreme Court. OMAHA'S PROGRESS IN TEN YEARS

The City Shows a Marked Advance in Bus-

The Census Bureau issued proliminary reports on the manufacturing industries of Omaha, Neb. The average wages for each worker increased from \$431 in 1880 to \$646 in 1890, or 40.88 per cent. In 1890 the number of industries reported was seventy-seven and establishments \$256, with a capital of \$15,625,000; 7,797, workers were employed, receiving \$4,507,000 in wages. The cost of materials used was \$27,779,000. The products reached \$35,961,000 in value. Population, 149,452, an increase of 109,934 during the last decade. The assessed valuation, was \$19,580,000, and the municipal debt-\$1,856,000. lness and Population. 1980,000, and the municipal debt-St, St, 000. Tin 1889 there were, forty-oflow industries reported, and 154 establishments, with \$1,835,000 expital, 1.088 hands employed, receiving \$720,000 in wages. The cost of materials used was \$2,527,000. The product was \$4,280,000 in value. The assessed valuation was \$7,512,000, and the municipal debt \$227,000.

PRINCELY GIFT TO A HOSPITAL.

St. Luke's, of New York, Receives a Dona-tion Valued at \$100,000.

The annual report of St. Luke's Hos-pital, New York, which has just been issued, states that the hospital has re-York woman, whose futher was once an active director of the institution. She has offered to give her country estate, which overlooks the Hudson, and is valued at \$100,000 to the trustees for use as some for convalescents. Only one condi tion has been imposed by the donor. She demands that n sum sufficiently large to pay the expense of maintaining the home be set uside. That would be about \$220, 000. The trustees hope to raise this among friends of the hospital.

QUEER DISEASE AMONG HERDS.

Cattle in lows Act Queerly and They Dic in a Short Time. News has been received in Council Binfs. Ta, that there are large herds of cattle in Garner township afflicted with some strange, unknown disease, which is taking strange, unknown disease, which is taking them off quite rapidly. The cattle appeared to be mad, frothed at the mouth, pawed the earth and dashed at persons who came near them. A number have died. Shortif Hazen sent an officer to Garner township and several of the animals were killed. A telegram was sent to the State veterinary surreon, and he is expected, to veterinary surgeon, and he is expected t make an examination.

Killed by Religious Excitement. Milliam Forreter, a convict in the Co-lumbus, Ohio, State pentientlary, suddenly appeared in the study of Rev. W. R. Dud-ley, Chaplain of the Institution, and fold nim the Lord had commanded him to offer in the Chaniain as a sacrifice, as Abrahum up the Chaplain as a sacrifice, as Abrahum attempted to offer up Isaac. The chance arrival of a guard in the study probably saved the Chaplain's life, as Ferreier had a knife which he was about to use. Ferreier's insantry was sudden and came from religious excitement. He became so visitent when seized by the guard that he afted the start house the state of the property of the construction. in a few hours in spite of the efforts of the prison physician.

Death of a Valuable Stallion Death of a Valuable Stallion.

The valuable stallion Alamont Star, the property of Fred Elms; of Washington County, New York, died. Alamont Star was foaled in 1881, by Atamont, dam Blanche Star, He was bred by W. T. Withers, of Lexington, Ky., of whom he was hought by E. D. Vaughn, of Washington County. He was sold to Mr. Elms last spring for \$3,000, although Mr. Vaughn was at one time of used \$1000 for him. was at one time offered \$10,000 for him. Alamont, Star was the sire of many fast

Blown Up by Dynamite.
At Tumbling Shouls, six miles below thattanooga, Tenn., on the Tennessee Chattanooga, Tenn., on the Tennessee River, the Government dredge boat at work was the scene of an explosion of sevwork was the scene of an explosion of seveniy-five pounds of dynamite. The deck was torn off and the craft sunk. The head of Chas, Gum, a laborer, was blown off and two men named Sharp and Thompson were seriously injured. Thirty men, were at work and their escape is marvelous.

Horse Thieves Lynched. Outlaws who had stolen several hundred horses in Upper Idaho had a battle with a pursuing posse the other day. Three of the thieves were wounded and many horses the thleves were wounded and many horses were shot. Then the poses set the prairie afire. Six others of the gang were shot down while trying to escape. The others were strung up on a tree, and the wounded ones who had been burned by the fames were given places beside them. Ada Dare Divorced.

At New York Thomas S. Hall, better known to the theateless profession as Dare, one of the Dure Brothers, acrobats, got a divorce from his wife, Frances M. Hall, whose stage name is Ada Dare. Ada Dare is an English actress of some prominence.

Chleago Can't Have the Blarney Stone The owner of Blarney Castle has refused to allow the Blarney stone to be taken to Chicago for the World's Fair.

New Triat for a Convicted Murderer. The full bench of the Massachusetts Sc preme Judicial Court in a decision sent

down set aside the verdict in the case of down set uside the verdicte in the case of J. A. Trefethen, convicted of the nurder of Tenn Davis, and ordered a nuw trial. The Davis girl disappeared Christmas eve, 1691, and about two weeks later her body was found in Mystic River, and the circumstantial evidence on which Trefethen was convicted was in the line of proving that he was riding with her that night and could have thrown her over the rail to her death without leaving marks of dolence on her body.

#### FIGHTING THE COAL BARONS.

upplementary Information Filed Against the Reading Company. the Reading Company.
A Trenton, N. J., dispatch suys: Attorney General Stockton has filed a supplementary information against the Central Railroad Company of New Jersoy, which resides the conditions under which the former information had been filed against the Central Part Reading and Boarding Control. Central, Port Reading, and Reading Com panies in the Reading deal. It further panies in the Reading deal. It further shows that the price of coal on or about July 1, 1892, had been ratsod from 10 to 15 per cent, and that on September 1, 1892, the Philadelphia and Reading and New Jersey Central raised the price of egg and stove coal about 25 per cent, and the chancellor is asked to direct that this company must not further advance the company must not further advance the price of coal. The prayer of the informations is that the rallroad company shall be toggs is that the rairroad company shall be obliged, under seal, to give facts as to the increase in the price of coal, and that the Philadelphia and Meading and Central Railroad Companies may be restrained from further continuing to maintain the advance.

#### GREATEST IN AMERICA

Monster Parade at Chicago to Inaugura

Dedication Coremonics.
The civic parade, Thursday, at Chicago, was the most notable affair of the kind ever seen in this country. Eighty thousand men on foot and thou-sands more mounted and in carsands more mounted and in car-riages, tramped over the route be-tween the densest masses of people on sidewalks. The spectators numbered over a milliopy and were so closely massed that for hours men and women were as effectu-ally confined as if prison. The tuildings along the line of march were apparently bursting with humanity, and the decora ful. There were over 300,000 strangers it

AVAILABLE STOCKS OF WHEAT.

Reports Received of the Amount on Hand. The available stocks of wheat in the United States and Canada east of the Rocky Mountains at last report were, as reported to Bradstreet's, 70,555,570 bushels. On the same date the total available stocks west of the Rockies were 9,482,522 bushels. Exports of wheat (and of flour as wheat) Exports of wheat (and of flour as wheat) from New York, Boston, Philadelphia, Baltimore, Newport News, New Orleans, Galveston, San Francisco, Portland (Oregon), Portland (Maine), Tacoma and Seattle, as reported by mail and wire to Bradstreet's, were, for the week, 3,270,275 bushels.

APPRECIATE THE DALTONS DEATHS.

Families of Coffeyville. Men Remembered by a Railroad. Six officials of the Missouri. Kansas and Texas Railroud Company were in Coffeythat company gives on account of the ex-termination of the Palton gang. They de-cided to give each of the families of the four margered citizens \$1,000 and divide the remainder, \$1,000, among five other citizens, John Klochr being one of the five. The relief fund, besides this contribution amounts now to \$5,975.

#### CARNEGIE EMPLOYES BEATEN. Laborers in the Pittsburg Mill Attacked by

Alleged Union Men. Alleged Union Men.

Early Thursday morning as Gus Smith and Hans, Button, day laborers in Carnergie's upper Union initi. Pittsburg, were set apon and terribly beaten by five menalleged to be strikers. They were found an hour later and sent to the West Penul Hospital. Smith's injuries are thought to be fatal; while satisfied less unconscious and in an extremely critical condition. There in an extremely critical condition. There is no positive clew to the assallants.

Strike on the Mexican Central. Advices received at San Antonio, Tex., are that the Mexican Ceutral Rullway is threatened to be tied up with a strike. The trouble began when the American mathinists in the shop in the City of Mexico went out or a strike. They demanded an increase of 60 cents per day. They were them receiving 44 per day. The railroad company refused to accede to the domands and the dissaltsfaction spread to the shops and the dissatisfaction spread to the shop at San Luls Potosi, and the machinists there have also walked out. The engin-eers and fremen are expected to out work. If the machinists demands are not granted.

Synod in Session. The Presbyterian Synod convened at Albany, N. Y. Moderator Parsons presiding. The reports on the work of the past year were submitted from the different presby-The reports on the work of the past year were submitted from the different presbyteries as well as reports from the several committees. The Moderator theu announced the members of the Judicial Committee which is to pass on the complaint of D. Briggs. The Judicial Committee met after the non recess and took up the uppeals of Dr. Briggs and Dr. McLeod. The latter served with his breakfast, he invariably together amount to ten thousand france."

Figular, us to resemble in no small deservations, he would find the gree, those of an automation. He can business a fortune."

"Well, and why do you not purchase looking to the right-or the left, and proceeded directly to a little round table, isolated and small, and for these reasons, nearly always unoccupied. After being served with his breakfast, he invariably together amount to ten thousand france." the noon recess and took up the appeals of Dr. Briggs and Dr. McLeod. The latter's appeal was referred to a sub-committee of

Michigan State Printers Burned Out At Lansing, Mich. fire originating from spontaneous combustion in the printing office of Robert Smith & Co. State printers. dumaged stock, presses and office fixture to the amount of \$10,000. The loss is fully

#### CARCASSONNE

fow old am Il I'm eighty years, I've worked both bard and long. Yes, patient as my life has been, One dearest sight I have not seen-It almost seems a wrong. Alas my dreams! they come not true; I thought to see fair Carcassonnel I have not seen fair Carcassonue.

One sees it dimly from the height Beyond the mountain blue; Fain would I walk five weary leagues-I do not mind the road's fatigues-Through morn and evening's dew; But bitter frost would fall at night, And on the grapes that yellow blight! I could not go to Carcassonne, I never went to Carcassonnel

They say it is as gay all times As holidays at he The gentles ride in gay attire. And in the sun each gilded spire Shoots up like those of Rome! The bishop the procession leads. The generals curb their prancing steeds
Alas! I know not Carcassonne! Alas! I saw not Carcassonnel

Our vicar's right he preaches loud, And bids us to beware, He says, "O guard the weakest part, And niget the traitor in the heart, Against ambition's snare! Perhaps in autumn I can find I wo sunny days with gentle wind I then could go to Carcassonne, I still could go to Carcassonne.

My God and Father! pardon me! If this my wish offends! One sees more hope more high than he In age as in his infancy,

To which his heart ascends! My wife, my son, have seen Narbonno My grandson went to Perpignan; But I have not seen Carcassonne, But I have not seen Carcassonne

Thus sighed a peasant, bent with age, Half dreaming in his chair. Isoid, "My friend, come go with mo To-morrow; these thine eyes shall see Those streets that seem so fair " That night there came, for passing soul, The church bell's low and solemn toll

He never saw gay Carcassonne. Who has not known his Carcassonne? -[Translated by M. E. W. Sherwood

### DOMINIC'S FEE.

Among the persons who were in the habit of regularly frequenting the well-known Cafe de Foy in the Palais Royal, in the year 18—, was a little old many very carefully dressed, although his costume constituted a real anachronism. His tume constituted a real machinonism. Itis head was enveloped in a warm Welsh wig, with a long, thick queue depending from it, which appeared, when viewed fellow, and I wish you well."

Trom behind, to resemble a full-grown a Dominic bowed, and elevated his cabbage, with the stem still daugling shoulders with that slight movement from its circumference. His pantaloous were of black cloth, and were net mid-mean. "I um much obliged," or "it is not a light movement which may be interpreted ad libitum to were of black cloth, and were net mid-mean. "I um much obliged," or "it is not like any severable." way down his stumpy legs by long Hessian boots, garnished with tassels, and bright as the surface of a polished mirror; a long green waisteoat fell downward in folds so as, to cover in part a round and well-developed haunch; a loose and capacious coat, of a deep margon color decious coat, of a deep margon color dec went-developed paunen; a loose and capa-cious cont. of a deep maroon color, dec-orated with large bright metal buttons, and forcibly reminding one of the era of the republic, hung over the shoulders; and a har, beveled, off into a sugar-loaf form, surmounted the wig, and completed her all, however, this costume was

nothing very extraordinary, or indeed very different from that of the hundreds of antiquated men, who about this epoch were to be seen swarming forth in fine weather, like a host of innocent green frogs basking in the sun after a spring shower. The little old man in question visited the Cafe de old de always divided into the same number of individual specifical and specifical and specifical specific the different waiters by the sobriquet of

"the man who always ate stale bread."
The old gentleman's state of existence was so uniform, and his movements so regular, us to resemble in no small deabstracted two out of the fixe pieces of sugar which lay beside his cup, and con-veyed them into the dexter pocket of his green waistcoat: he next proceeded to outter in succession each of the numer-ous morsels of bread, adding, if I misake not, precisely the same number of rains of sait to each, and then are his breakfast, cautiously abstaining from looking at any of the journals or periodiabstaining from

Some of the ardent politicians who frequented the place expressed astonishment and confempt at this last habit, and regarded the little old man as a very van-dal, careless of the honor and interests of The more judicious, and mis country. The more judicious, and immong them myself, were of a different pinion; we considered him, for presisely the same reasons, a very paragon of prudence and wisdom. Inattentive to soft parties takes

Ple toffee-house keeper, however, reck-ined without his host in this supposiion, for the next day, and the next day nd the next "the man who plways are regularly pocketed his two sugar, beat his accustomed umps of sugar, beat his accustomed narch, pulled up his Hessian boots, and id all that he had been accustomed to with the exception of paying his

This change in his usual practice continued for a week, and at the end of which time the proprietor of the coffee house, ignorant of the name or residence of his debtor, determined—upon presenting him with a bill, the more especially as the little man gave no explanation of his conduct, or made any allusion to this remarkable change in his ancient habits. Dominic, the chief waiter of the establishment, had become accustomed to the old man in consequence of the little trouble he gave, and his quiet and gentle demeanor. Dominic imagined, from the This change in his usual practice condemeanor. Dominic imagined, from the circumstances of his not diminishing the expense of his breakfast, that the good man was merely laboring under some temporary embarrassment, so that, partly from calculation and partly from good sary-general of the armies of the empire."

responsible to the proprietor for the past and future breakfasts, not doubting that it lately in the newspapers,"
the embarrassment would shortly cease, and the little man would soon settle his tion obtained by my indicate an injunctive arrears, and perhaps accommon the directs, and perhaps accompany the set-lement with a gratuity for the accommo-

But Dominic was deceived in his calulation of time; ten mouths clapsed without any allusion to the matter, or offer of payment. The coffee-house keeper and his walters began to shrug their shoulders and make long faces at the risk, poor. Dominic was running. Dominic himself exposed to these daily refundable to diberally in becoming responsible for a man whose debt seemed destined to go us reon accruing foreyer, when one day the old man, without any explanation, demanded his account, settled it in full, and after a careful calculation handed to the waiter in addition the sum of fer. the waiter, in addition, the sum of fifthe rate of one son a day for ten months, of which four contained thirty-one

If interest alone had guided the con duct of the head waiter, it must be con-fessed that he had lamentably failed in the result, for in France the contributions to the waiters are all placed in one general cash box, and at the end of a certain period the proceeds are divided among all the servants of the house—the master first helping himself to the lion's share; at this rate, therefore, Dominie's recompense would probably amount to a solitary sixpence. Dominic knew this, solitary sixpence. Dominic knew this, but was satisfied with the reward of his own heart; he thanked the old man gracounty for the payment; placed the gra-tuity in the common receptacle, and transferred the other moneys to his own stronghold, for he had previously paid, day by day, the expenses of the breakfast from his own pocket.

The little man followed Dominic's movements with his eyes, at the same time heating upon the table a march, some what longer and vehement than was his wont, but by no word or movement did he afford an indication of having under-stood the liberal conduct of the waiter

in his behalf, About the close of the same three or four mouths after the liquidation of this singular debt—the proprietor of the cafe, who had amassed a fortune, announced his intention of disposing of establishment and retiring from trade

mean, "I am much obliged," or "it is of little consequence to me." The old of little consequence to me." The oki man took the former explanation and

continued:
Dominic, I am sure you have been economical; I know this and much more of which I do not speak, because I am too well acquainted with the value of words to throw them away-I know you

have saved money."

Dominic bounded back a step or two. and the action hardly needed to be terpreted. "He is about to ask me lend him money," thought the he waiter.
The questioner appeared to divine the

The questioner appeared to divine the you must get married; thoughts of the waiter; his visage was for an instant distorted with a grimace, of which the model may be seen in the figures of the middle ages, which deepen the the porch of some Gothic church.

"Dominic," he continued, "I see that I am right—you have money in the funds. This is excellent; and now to Be ready at 8 o'clock this evening: I will can be a superscious of the middle of the continue of t

Foy every morning precisely at one funds. This is excellent, and now to Be ready at 8 o'clock this evening: I will reply to my question shortly and to the call for you, and we will pay a risk to-cream, and a roll of bread, which he always divided into the same number of knowledge, that an intelligent man, de-

together amount to ten thousand francs,"
Ten thousand francs! how long have
you been in service, Dominic?"
"I have carried the napkin for twenty-

by adding son to son would soon be actly beautiful, possessed all the freshworth a million at the head of a house ness and bloom of the flower whose name

"Nothing. I would not incur a debt of two hundred and twenty thousand of two hundred and twenty thousand the interest would probably absorb all the interest would probably absorb all the profit. I would rather continue a waiter a few years longer, and series the simple and inexpensive dresses of upon a small annuity, than running the risk of marching to prison in the shoes of a bankrupt."

"You speak sense, my friend, but and indeed thought from a lint that the leave the matter to me."

"Conduct me to him."

Dominic moved forward to show the man the way; his heart bent with violence. Although he had passed the whole of the preceding day in trying to convince himself that the old, man was wenk in his Intellect, and westrifling with him, still his perplexity returned when he beheld the air of assurance and determination with which othe man who ate stale bread" proceeded about the business. When they were both arrived in the presence of the proprietor, the old man commenced the conversation with-

tion obtained by my indiginant family to prevent me from wasting my fortune. They say that I am a fool, and that my liberality has its origin in imbecility. During ten months, while the inquiry was going on, my property was estreated, and I refused to touch the allowance offered me. Since then the inquiry has terninated in favor of my sanity, and having again entered upon the administration of my property. I was enabled to refund to this excellent man the little sum he had the generosity to disburse for me. Now that we know each other, let hesitated toucknowledge their obligations us return to business. What sum do you demand for your establishment?"

"Two hundred and twenty thousand francs.

"It is not, perhaps, too dear; and yet you would probably have no objection to leave some of the purchase money on mortgage, But listen to me. The times are unsettled, and the most solid estabshmeuts are at the mercy of revolutions ind two hundred thousand francs nov re better than two hundred and twenty are better than two hundred and twenty thousand in prospective. Here, then," he continued, drawing an old portfolio from his pocket, "is two hundred thousand france in notes of the Bank of France. If these satisfy you, the affair is fluished. This is my way of transacting business, and in my time I have completed more important burguins in fewer words,"

Dominie and his master both seemed stupefied with surprise. The baron ap-peared to enjoy the confusion, and subbed his hands and repeated the grimace to which we have alluded. "I am willing to agree," said the proprietor; "but it is necessary that the mater should be arranged by a notary."

Why so? Is not the sale executed in good form by the three parties present?"
"But with respect to the interest,"
nurmured Dominic in a smothered tone f voice, seizing the baron's coat, "it is

cessory—"
"Bah!" replied the old man, "I do it to oblige a friend, and am no usurer. Give me your acknowledgment—I desire noth-ing else. But as I have no intention of making you a present of two lundred thousand francs, I will arrange it in such manner-that you shall not long remain

Dominic fell from his elevation, and establishment and retiring from trade.

Hearing this intention announced in the cafe, the old gentleman made a sign to Dominic, who was in attendance, to approach and began a conversation. Dominic was as much surprised at the buyer and seller were preparing themselves to register the transfer of the studen fit of loquacity as though one of the studen fighter on the ceiling had copened its mouth and had asked for a cup of coffee. But Dominic was destined to be even more surprised at the nature of the conversation.

"My friend," said the little old gentle, it would find the two hundred thousand frates. thousand francs.

In a few days Dominic was installed in his new dignity. The little old man continued to take his customary breaks fast in his usual impassive manner, when, one day, as he was leaving the room, he deviated so far from his usual custom as to approach Dominic, who was enthroaed in the seat of honor, and address him with the following words:
"Dominic," said he, "I think you have warm affections."

"Perhaps," said Dominic, fixing his eyes upon the baron, as though he would read his thoughts.

read his thoughts.

"I see," said the other; "you have them when the occasion demands it. You are right—I am pleased with the reservation. I find you have not lost your heart. Marriage is the most important affair of a man's life. Dominic you must get married."

"I have already thought of it sit." I have already thought of it, sir,"

The appointed hour arrived, and with it the baron. Dominic was ready and accompanied Monsieur Ragelet in a backney-coach to that quarter of decayed wealth—the Faubourg St. Germain. Here they stopped at the door of a house of

mean appearance, and having ascended several flights of stairs, entered a small apartment, where they found two ladies, who received them with marked atten-"Merch, I! with what?" the cottage-house keeper, "this lady is the widow of a man who has rendered "With my savings" they do not all me many an important service. She has

promised to extend her favors to you and will permit you to visit her at intervals."
While Monsieur Ragelet was making three years. I am now thirty-nine." I these introductions in due form, the You are a good fellow, as I said; the daughter of Madame Dupre, whose name man who could amass ten thousand francs was Rose, and who, without being exlike this. Decidedly it must be so, she bore, regarded Dominic attentively, Dominic, I know a person who could as and he in return bestowed upon her a sist you with a loan; how much do you large share of his attention. The result of this double investigation appeared fa-verable to both parties, for Dominic was well formed and with good features, and

One day, toward the close of the year of leave the matter to me. The old man then adjusted the folds of his boots, and departed without another word. The next morning he came out paying for his breakfast; but as he made no observation in so doing, it was aupposed that he had forgotten it, and would remember it the next morning.

The toffee-house keepers. vices done him by the elder Dupre, and his desire, as the family were left in re-duced circumstances to discharge the obigntion without plarming their delicacy nd this he thought he could best do by effecting marriage between Dominic and the daughter of his friend. Dominic was satisfied with this ex-

planation and arrangement; the young lady seemed truly amiable, and desirable as a partner for life; and before a week had clapsed Dominic made a formal of-fer of his hand and heart, and was duly ccepted.
The marriage was soon after solem-

nived, and the same day after his cus-Dominic to approach. "You have done well," said he, "you

have married without interested motives, a woman desirous and capable of render-ing you happy. I told you I should, find he means to cancel the debt you owe me;

Royal, and, having brought it to its present state of perfection, sold the property for 500,000 francs. He is now a retired citizen, residing in a noble hotel in the Rue St. Honore, distinguished chiefly for the simple-probity of his character. Rose and he have never forgotten nor

but he was already out of the door, "Two or three such acts," he muttered to himself as he walked swiftly away, "and I shall die contented; and these are what my relations call predigal dilapidations of my fortune."

tions of my fortune."

Dominic verified the prediction of the

baron, and became a millionaire. He improved the establishment of the Palais

lu trade the rose is very valuable, as In trade the rose is very valuable, as the attars of India and Persia sell at a very high price, and there are large districts of rose gardens, in which numbers of men and women are employed—the harvest inouths being March and April; in Turkey, also, rose farming is largely carried on, and a very fine attar is got from the roses grown in Cashmere. Even rose-water is a luxury which is by no menns to be despised as to price, but the attar of roses is immensely costly, as it takes an enormous number of flowers to distill even a few drops. The attar is said to have been first discovered by the favorite wife of Jehan Jeer, through favorite wife of Jehan Jeer, through whose garden ran a canal of rose-water, on the surface of which the Begum found on the surface of which the Begum found a few drops of the precious attar, or oil, floating. The petals of the tea-rose, a species of noisette with a very fine fragrance, are used in China as a flavoring for teas. A mild astringent syrup is made from the petals of the French rose; and the hundred-leaved rose, a variety well known to the ancients, and originally found in the Caucasus, is also used to make rose-water and a medicinal to make rose-water and a medicinal symp. A vinegar made from roses is used for lieadaches; a conserve of roses used for headaches; a conserve of roses; and sugar is given medicinally to children, and the fruit or hip is also used as a medicinal conserve; while on the Continent dried, hips are used to flavor soups and stews, and one even hears of them being preserved in sugar or made into a kind-of jelly. The first cultivated rose is said to have been planted in Britain in A. D. 1522. The damask rose was brought from France in 1573, the moss rose about 1724 and the China rose, some fifty, years later. Wild roses are, however, anatives of all parts of Britain, In Withering's "British Botany" only five distinct species are said to be indigenous; but in Hooker's and Arnott's "British Flora" inherten species are mentioned, and some writers on are mentioned; and some writers on botany raise the number as high as twenty-four. Certainly there are very many beautiful varieties, of all shades and colors and of exquisite sweetness, to be found in all parts of the country, twenty-four. which make a glory in our Summer hedgerows and give us the brightness of the Autumn dopberry to gladden the fading year. —[Detroit Free Press.

#### Chinese Money.

The most provoking thing in China is the money queetion. The only coin is-sued by the nation is "cash" or brass pieces with holes in them. It takes ten

pieces with holes in them. It takes ten of them to make a cent and 1,000 to make a dollar. It you should go shopping with Chinese money it would take a jen-riksha to carry your purse.

There being no silver coin issued by the Government, the Mexican dollar has crowded its way in: This fluctuates in value every day. To day it is 65 to value every day. To day it is 65, to-morrow it may be 63 or 70. Nine out of every ten of the Mexican dollars has been tampered with by either-cutting or drilling. Counterfeits are everywhere. Each store stamps every dollar it pays Each store stamps every dollar it pays out with a private stamp. It it isn't good you can take it back. Sometimes the poor dollar has been stamped so much that it is unrecognizable as a Mexican coin but the coip, but the store or bank which has coin, but the store or bank which has put on the last stamp must, redeen it. The counterfeiting Chinese have ruined the Mexican dollar, the only currency they had. It is a dollar now without a country behind it; no, not even a friend. The Chinese have free coinage. Any one can make what they call a tael piece. This is a chunk of silver shaped like a Control of the country of the Thinese woman's little shoe. The pieces worth about six Mexican dollars, but it goes up and down with the price of silver in America.—[New York Sun.

#### Novel Trout Catching.

Sullivan County, N. Y., where wild land may be bought at less than \$5 an acre and where many trout streams are nere and where many trout streams are unpreserved, has an extraordinary story of a Brooklyn sportsman, who found himself at the edge of a trout hole literally swarming with fish when he was unprovided with tackle. He gave a despuiring glance at the fish and was about to mas on when a most unprovident. to pass on, when a most unsportsman-like idea came into his head, and the next moment he yielded to the temptation. The stream was narrow and the sportsman was broad, so taking off his trousers he fied the legs into sacks, and going to the narrowest part of the trout hole down stream, he weighed down the hole down stream, he weighed down the waistband with stones and propped wide the natural entrance to the trousers with stout sticks. Then wading into the stream above the fish, he had the satisfaction of driving the whole shoal into the gaping mouth of his netted garments. Approaching cautiously, he snatched the trousers from the water and laid their writhing limbs upon the bank. His conduct was most unsportsmaulike, but those who ate the trout overlooked this little matter of technique .- New York

#### Licorice.

The stick licorice imported from Europe is rarely pure. Most of it comes from Spain, where it is adulterated to an almost incredible degree. The chief adulterant is a common and cheap gum adulterant is a common and cheap gum obtained from an acacia, which grows in great abundance in Morocco and along the west coast of the Sahara, and is called Barbara gum. But this is not the only substance used, for starch, flour and even sand are employed in such quantities that some of the cheap grades of licorice have only one-half their weight composed of the material they purport to contain.

#### Some Vegetarian Examples.

Wendell Phillips was a vegetarian. He told me he had not tasted meat in fifty years, except on occasional instances when he could get nothing clse to eat, and that he knew he was better off with-out it. Miss Alcott, authoress of "Little the means to cancer the deet you owe me; it is the dowry of Rose. And here; Women." was a vegetarian, as was her continued he, tearing the 200,000 franc bill in pieces, "I destroy the acknowledg-osopher. Thoreau was also a vegetarian, and be happy."

Dominic, full of cratitude, would have Home and Garden.
